STANDING COMMITTEES, 1891.

IN BOARD OF MAYOR AND ALDERMEN.

Enrollment—Ald. White, Ledoux and Rideout.
Election and Returns—Ald. Woodward, Field and Ledoux.
Highways and Bridges—Mayor Beasom, Ald. Faxon and Field.
Licenses—Ald. Merrill, Woodward and Rideout.
Street Lights—Ald. Merrill, Keegan and Holden.
Police Department—Mayor Beasom, Ald. Faxon and Sweeney.

IN BOARD OF COMMON COUNCIL.

Bills in Second Reading—Councilmen Brigham, Tuck, Griswold and Jones.
Enrollment—Councilmen Thurber, Keith, Coffin, and Barker.
Election and Returns—Councilmen Blood, Moran, Noble and Jackman.

JOINT STANDING COMMITTEES.

Accounts and Finances—Mayor, Ald. Woodbury and Flather.
Councilmen Barker, Blood, Witham and McGlynn.
Claims—Mayor, Ald. Cummings and Flather. Councilmen
Blood, Ledoux, McGlynn and Thurber.
Commons and Burial Places—Mayor, Ald. Cummings and Gale.
Councilmen Witham, Gauthier, Tolles and Ledoux.
Fire Department—Mayor, Woodbury and White. Council-
men Blood, Coffey, Whidden and Noble.
Lands and Buildings—Mayor, Woodward and Holden. Coun-
cilmen Tolles, Moran, McGlynn and Brigham.
City Farm and House of Correction—Mayor, Faxon and Moran.
Councilmen Noble, Blood, Coffey and Witham.
Printing and Stationery—Mayor, Holden and Gale. Council-
men Witham, Moran, Noble and Gauthier.
Sewers and Drains—Mayor, Cummings and Keegan. Council-
men Noble, Toos, Ledoux and Moran.

POLICE COURT.

Hon. Charles W. Hoitt, Justice ; Hon. William. O. Clough, Associate Justice ; Fred H. Morrill, Clerk.

BOARD OF ASSESSORS.

Eugene F. Whitney, Chairman ; George P. Kimball, Clerk ; Charles R. McQuesten, Horace S. Ashley, Charles F. Tolles.

BOARD OF HEALTH.

Alvin S. Eaton, M. H. Tierney, M. D., A. W. Shea, M. D.

OVERSEERS OF THE POOR.

William S. Atwood, John B. Foisie, Tyler M. Shattuck.

INSPECTORS OF CHECK LISTS.

William P. Clark, Patrick Gaffney, Charles O. Andrews, William Ahearn, Charles S. Dudley, Ai A. Reynolds, Levi W. Goodrich, Calvin T. Robinson.

SUPERINTENDENT OF CITY FARM.

Charles E. Buckham.

LIQUOR AGENT.

Patrick Barry.

FENCE VIEWERS.

Charles A. Roby, Henry O. Atwood, Walter M. Gilson,
Lot Boody.

INSPECTOR OF PETROLEUM AND ITS PRODUCTS.

Ira S. Brigham.

SEALER OF WEIGHTS AND MEASURES.

George E. Heath.

TRUSTEES OF SINKING FUND.

Hon. William H. Beasom, Mayor;
F. W. Burnham, Pres. of Council; Ald. A. K. Woodbury.

TRUSTEES OF HUNT LEGACY.

Hon. William H. Beasom, Mayor;
F. W. Burnham, President of Council;
Gilman C. Shattuck, President Board of Education;
Lyman D. Cook; F. W. Maynard.

MEASURERS OF BRICK, STONE AND PLASTERING.

Henry F. Richmond,	C. W. Stevens,
George W. Badger,	C. E. Emerson,
A. H. Saunders,	Job Wallace.

CULLER OF BRICK.

Dennis Cone.

SURVEYORS OF WOOD AND LUMBER.

James H. Tolles,	George E. Heath,

Mayor Beasom's Inaugural Address.

Delivered in the Court Room, City Hall Building, Thursday,
January 1st, 1891.

GENTLEMEN OF THE CITY COUNCILS:

We have met to-day to assume responsibilities that demand careful and earnest consideration from us all. That any of us, even those who meet here to-day for the first time, are inclined to underate those duties, I do not believe.

While it is impossible at this time to form an exact estimate of the work that will be required of us during the coming year, I desire to call your attention in as brief a manner as possible to an outline of what is, in my opinion, a necessary part of our duties in the present municipal year.

Our financial condition is naturally first in interest to the taxpayer, and we will give that department our first attention.

Our financial condition January 1st, 1891, which may be changed a trifle by outstanding bills not yet presented, is as follows:

LIABILITIES.

Debt Jan. 1, 1890, in bonds and long time notes...	\$378,400 00
Paid from sinking fund in 1890,.....	14,900 00
<hr/>	
Total funded debt Jan. 1, 1891,.....	\$363,500 00
Temporary loan,.....	155,000 00
Noyes medal note,.....	1,000 00
Mrs. Crowley's note,.....	300 00
E. H. Upham's note,.....	100 00
Unpaid bills (estimated).....	6,000 00
Balance to bill contracted by police station,.....	10,890 45
<hr/>	
Total debt Jan. 1, 1891,.....	\$536,790 45

ASSETS.

Sinking fund (on deposit in savings banks).....	\$179,463 64
Sinking fund interest to Jan. 1, 1891,.....	3,067 80
Uncollected taxes,.....	21,040 33
Cash,.....	18,008 29
<hr/>	
Total,.....	\$221,580 06

Or a net indebtedness of \$315,210.40.

In this connection I will state that the real estate and other personal property of the city not included in the above will show an increase this year. How much I am unable to say, as the inventories are not figured as yet.

By comparison with our net debt, as per city report, January 1, 1890, these figures show an increase of \$79,723.14 during 1890, and of \$139,255.30 since January 1, 1889.

The constantly increasing needs of our growing city render a large outlay necessary each year. While I believe it possible to reduce the present tax rate, I do not think that we shall see again the very low tax rate of some years in the past. It is my opinion that the average taxpayer does not scrutinize his tax rate as closely as he does the value he receives for it. Let us see to it that each dollar raised by taxation in 1891 is made to give our citizens one hundred cents of actual value.

The various items composing our temporary loan I recommend be placed in the shape of a bonded loan for a term of years. To do this an issue of about \$155,000 of bonds will be necessary. On our assessed valuation of \$10,445,000 in 1890 our present net indebtedness is only 3 per cent., giving our city a very high credit and enabling us to float our bonds at a low rate of interest.

During 1891 \$45,000 of our present loan comes due and will be paid from our sinking fund.

FIRE DEPARTMENT.

Our fire department is a subject of vital importance to every citizen of Nashua. The influence of party politics has been felt in times past altogether too much in this branch of our public service. With the present system of yearly elections to the most important positions in this department, I fail to see how this element can be eliminated. Men who are fully competent to take and fill these important offices are generally men who are in demand in private positions, and do not care to hazard the uncertainties of annual elections.

With the view to a strictly non-partisan fire department, I earnestly urge our representatives in the legislature an immediate amendment to our city charter placing the appointing power—and such other powers as may be safely delegated—in the hands of a Fire Commission; the officers to be appointed by such commissioners to serve during good behavior or until their removal by the commission for some specified cause, and chief among causes I would place political work of any kind or character. The appointment of the commissioners themselves I would place in the hands of the mayor, and would recommend a commission of three to serve for one, two or three years, and not more than two of such commissioners should belong to one political party. No commissioner should be allowed to hold any other municipal office during his term of service, and he should be subject to removal by the board of mayor and aldermen for sufficient cause. This would give to each mayor the

appointment of one commissioner, and I have faith enough to believe that no matter which political party our chief executive should represent, he would strive to make such an appointment as would be a credit to his administration.

With such a system in vogue and a liberal salary paid to a thoroughly efficient chief engineer, I believe that the Nashua Fire Department would be, where every good citizen desires to see it, entirely removed from the influences of party politics.

With the growth of our city the territory covered by the department has been so extended as to place much of our city outside the limits of a reasonable run from the central station.

Especially is this true of the north side of the Nashua river, the steep grade necessary to climb before reaching the thickly settled portion of this section in times of heavy snow is rendered nearly impassible for heavy apparatus on wheels. With this in view I urge upon you the importance of erecting upon some high point of land a suitable engine house where apparatus may be kept for the protection of this section. The spare steamer may be kept there together with a hose carriage, and possibly the ladder truck now in active use. I especially urge upon you the importance of constructing this house during the present year, as by another year at the latest, we should take steps toward the better fire protection of what is now known as the "Crown Hill" district. Owing to the comparatively level run from the central station to "Crown Hill," I consider it much better protected at present than the high ground I have referred to. A recent fire has demonstrated the necessity of a new and improved ladder truck—the one now in use being almost worthless in case of a fire in a building over fifty feet high. I recommend the immediate purchase of a new and improved truck that shall be more in keeping with our other apparatus.

I may perhaps be allowed to allude to the police department as the "companion" of the department just mentioned. In a department charged with the safeguard of our lives and property, it is deplorable indeed that politics should play such an important part in its organization. Like the fire department, however, I consider it utterly impossible to organize this depart-

ment as I believe the majority of our citizens would like to see it, under our present system. Reform, in my opinion, can come only through a change in system, and I urge for the consideration of our legislators a plan (or commission) similar to that which I suggest for the fire department. In connection with the police department I wish to urge upon you the necessity of providing a means of safe and easy transportation to their homes of the numerous accident cases that are continually occurring in a manufacturing city like ours. A suitable ambulance should be provided as soon as possible for free public use. The expense of maintenance would be a sum which I think no tax-payer would grudge for relief of the injured.

The street department is full of interest to all of us.

I trust I shall not be understood to cast any reflection upon the present able head of this department if I urge upon our representatives in the legislature the necessity of a change in the present law. I consider the law as it stands a menace to our tax-payers in future years, as it gives the street commissioner unlimited control of our highways and bridges, in which he is responsible to no one. You will readily understand that such power at some future time is liable to great abuse.

I recommend that the law be amended so as to put the street commissioner under the control of the board of mayor and aldermen in all matters except in regard to hiring such assistance as he requires. As he is to be responsible to the citizens for the character of his work, all matters pertaining to the hiring of help should be left in his hands.

In connection with this department I will allude to two practices that have, it appears to me, done much to retard the proper development of our city. With us, at present, land is plenty and cheap, and streets of a less width than forty feet should never be laid out by a citizen, or accepted by the city councils.

In many cases new streets of great benefit to the whole community are either stopped or turned in some other direction by the greed of a land owner who, not content with the great increase in value to his property caused by laying out the street,

insists on extorting from the city the last cent the land taken for the street is worth for building purposes when it is finished. Such people will do well to remember that in many cities a large proportion of the improvements—edgestones, sewers, and the like—are chargeable to the abutters on the street, while with us everything is free to the abutor, and a healthy, public spirit would seem to demand that the land for street purposes be given free to the city, when, as in most cases, the remaining land is enhanced in value. Citizens who are inclined to be impatient at apparent neglect in the matter of edge-stones will do well to bear the above in mind.

The appropriation to furnish free edgestones was largely overdrawn last year, but to make it large enough to satisfy the demands for a single year would bring forth loud condemnation from the tax-payers.

SEWERS.

The call for larger expenditures in this department grows stronger every year. Although 8000 feet of pipe sewers has been laid during the past year the demand is hardly half satisfied.

I cannot but think that the demand would be lessened and justice be done the average tax-payers (especially in outlying districts) if at least one-half the cost of the sewers should be assessed to the abutters on the street through which the sewer passes. This is the course pursued in a majority of cities, and I think it is a just one for all concerned. The construction of sewers are in the nature of permanent improvements, and I consider that those who are to come after us should pay their proportion. Property now under exemption, but enjoying all the benefits to be derived from a good sewerage system, should not be denied the privilege of helping to pay for its construction.

I think the large sums expended in the past are all this generation ought to pay for permanent improvements of this character, and I recommend that whatever is done in the coming year be paid for by the issue of bonds or notes. A loan

like this can be placed at a low rate of interest for a long term of years, and I think it only justice to this generation of tax-payers that it be done.

In this department the element of politics has often been introduced, in many instances to the detriment of the work as well as a needless expense to the tax-payers. To insure the carrying on of this work on business principles, I strongly recommend the construction of all sewers by contract instead of by the present system.

We have among our residents many men fully acquainted with this class of work. I believe they would be glad to bid upon it, and by confining ourselves to bids from Nashua contractors, and stipulations that none but citizens of Nashua be employed, at a fair rate of wages, the interests of all our citizens would be fully protected.

Work done in this manner and under the supervision of our present efficient city engineer (whose retention in office I strongly urge), I am confident, will be done in a satisfactory manner both as to quality and cost.

PAUPERS OFF FARM AND SOLDIERS' AID.

Two items in our city report for 1890, taken collectively, from, in my opinion, a startling array of figures. They are:

Paupers off the farm,.....	\$5,928 03
Soldiers' aid,....	4,746 02

Total, 10,674 05

an increase of \$1,500 over 1889, of \$5,700 over 1888, and of nearly \$8,500 over 1887. I do not wish to be understood as condemning aid to our worthy poor, or as in favor of withholding assistance from deserving soldiers. While our city has grown so rapidly the past few years I do not believe that the ranks of our poor have nearly doubled since 1888. By this assertion do not understand me as casting reflections upon the men charged with the expenditure of this money, for I do not consider it reasonable to expect them to give their time and close personal attention to individual cases for charity, upon the

beggarly salary they are now paid, \$75 per year each. Then, too, the State law, providing aid for soldiers and their families, while passed with the best of intentions, is so drawn as to render the city at the mercy of unscrupulous persons who may chance to have served during the war, and who choose to abuse the privilege rightly granted to deserving and helpless veterans and their families.

In relation to this matter my predecessor in office makes the following suggestion which I heartily endorse; "That the Overseers of the Poor serve as a board without pay. But that they elect a clerk, who may be one of their own members. He shall receive a fair salary and have an office in the City Hall building. He should furnish a bond for faithful performance of his duties, and should carefully investigate each application for charity from the city."

CITY FARM.

This is a department with which I must confess myself not as familiar as I could wish. By the courtesy of my predecessor I was extended an invitation to be present at the annual inventory just taken, and I was greatly pleased at the condition of the premises. The care and skill of Mr. C. E. Buckham, (the present superintendent) and Mrs. Buckham as matron, are visible on every hand. In this department the absence of records from which to compile reliable statistics extending over a term of years I consider a gross fault, and I recommend the immediate attention to this point by the committee on city farm.

SCHOOLS.

All tax-payers interested in the prosperity of our city are, I am sure, proud of our public schools.

In this department I have no recommendations to make except to urge upon the board of education the importance of the most rigid economy consistent with a good school system.

The crowded condition of the Mt. Pleasant school building demands increased accommodations for that section in the near future; whether it should be done this year or not, I leave to

your decision. The rapid increase in expenditure in this department, reaching \$47,559.21 the present year, or exceeding the expenditure in 1889 nearly \$7000, is caused by the opening of the Arlington street school house and by the Free Text Book law.

CLAIMS.

During the past few years has sprung up a largely increased number of claims against the city for damages of various character and arising from many causes demanding prompt attention and skilful handling. At the beginning of 1890 we had a number of suits on the docket against the city. Our present able city solicitor by strict attention to duty has disposed of these cases either by settlement or otherwise, so that we start with practically a clean sheet so far as claims are concerned. In this connection I recommend revision of our city charter and ordinance early in the year. They have not been revised since 1884, and have been so amended and added to since then that it is unsafe to follow that edition longer.

From the number of recommendations I have made to our delegation in the legislature, I trust no one will think that I am intruding upon the business of a body entirely distinct from ourselves. But in my opinion the work to be done in the various amendments to our city charter, is rendered necessary by our rapid growth, and upon the interpretation of our charter all the work before us is based.

In conclusion, gentlemen, let me urge it upon you that each member of the city councils gives the work in the committees to which he shall be appointed his earnest attention, sinking all questions of a personal nature or of a purely partisan character, seeking at all times to conduct ourselves and our deliberations with a spirit of fairness and courtesy that shall command respect from our fellow citizens. The tax-payers demand and expect a clean, business-like administration. Let us see to it that the administration of 1891 shall take its place in our municipal history not less honored than any of the thirty-seven that have preceded it.

RECEIPTS AND EXPENDITURES.

NASHUA, December 31, 1890.

The undersigned, Joint Standing Committee of Accounts and Finances, of the City of Nashua, for the year ending December 31st, 1890, have this day examined the foregoing accounts of Charles S. Bussell, City Clerk, and find the same to be correctly cast, and sustained by proper vouchers, which are now on file at the City Clerk's office.

CHARLES H. BURKE, Mayor,
W. H. BEASOM,
GEO. D. NUTTING,
JOSEPH A. NOBLE,
GEO. F. BLOOD,
CHARLES W. COFFIN.

CITY TREASURER'S REPORT.

NASHUA, N. H., January 10, 1891.

*To His Honor the Mayor, and the City Councils of
Nashua :*

GENTLEMEN :—I hereby submit the report of the City Treasurer for the financial year ending December 31st, 1890.

Respectfully,

F. A. McKEAN,
City Treasurer.

Dr. F. A. McKean, City Treasurer.

CITY OF NASHUA,

In the year of our Lord one thousand eight hundred and ninety.

AN ORDINANCE

Defining and regulating the duties and salary of the City Engineer.

Be it Ordained, By the Mayor and Aldermen and Common Council of the City of Nashua, in City Councils assembled, as follows :

SECTION 1. The Civil Engineer of the city, under the direction of the Mayor and Aldermen, shall have charge of all plans of public grounds, commons, streets, sewers, and main drains belonging to the city. He shall make all such surveys, estimates, measurements, and levels, and perform such other duties as may be required of him by the Mayor, Board of Aldermen, or any committee of the City Councils, or either Board thereof. He shall, under the directions of the City Councils, collect and file in his office, for the city, accurate plans of all public grounds, commons, streets, sewers, and main drains, showing all entrances thereto, and all estates abutting thereon, with their frontage and owner's names. He shall make, or cause to be made, complete and accurate plans of public grounds at present existing, or that may hereafter be laid out. Also make, or cause to be made, complete and accurate profiles of all public streets at present existing, or that may hereafter be laid out, and shall draw on said profiles lines to represent the proposed grade of side-walks in each side of said streets, all to be under the direction of the City Councils, and said proposed grade when approved by the City Councils, shall become the established

grade for said streets, and said grade shall not be changed, except by said City Councils, and hereafter all abutters, making improvements, or building sidewalks, within the limits of said streets, shall cause the same to conform to the established grade. All books, plans and papers containing files, notes and memorandums shall be the property of the city.

SEC. 2. The Civil Engineer of the city shall receive one thousand dollars per annum, in full for his services as such, payable in quarterly payments.

Passed Jan. 6, 1890.

C. S. BUSSELL, City Clerk.

CITY OF NASHUA,

In the year of our Lord one thousand eight hundred and ninety.

AN ORDINANCE

Amending Section 2, Chapter IV of the Revised Ordinances.

Be it Ordained, by the Mayor and Aldermen and Common Council of the City of Nashua, in City Councils assembled,^{as} follows :

That Section 2, Chapter IV of the Revised Ordinances be amended by striking out the word "eleven" in the fourth line thereof, and inserting the word "twelve" in said fourth line, after the word "exceeding," so that said section amended shall read as follows :

The Mayor and Aldermen may from time to time, order a suitable watch to be kept in the night time, and for that purpose may appoint any number of watchmen, not exceeding twelve, which they may deem necessary, and establish all needful rules and regulations for the government of such watch. This amendment shall take effect on and after its passage.

Passed Jan. 28, 1890.

A true copy—Attest,

C. S. BUSSELL, City Clerk.]

CITY OF NASHUA,

In the year of our Lord one thousand eight hundred and ninety.

AN ORDINANCE

Regulating the City Solicitor's Salary.

Be it Ordained, by the Mayor and Aldermen and Common Council of the City of Nashua, in City Councils assembled, as follows :

That section 6 of the Revised Ordinances be amended by striking out the word "two" after the word "of," and before the word "hundred" in the third line of said section, and inserting instead thereof the word "five," so that said section when amended shall read as follows :

SECTION 6. * The City Solicitor shall receive in full for his services, and for all duties appertaining to his office, at the rate of Five Hundred Dollars per annum, which sum shall be paid him in equal quarterly payments. In all cases however, when his attendance may be required out of the city, his reasonable traveling expenses shall be allowed him, and in all suits and prosecutions he shall account for, and pay over to the city treasurer once in six months, all moneys secured from adverse parties, when the city shall recover the same.

Passed Jan. 28, 1890.

CITY OF NASHUA,

In the year of our Lord one thousand eight hundred and ninety.

AN ORDINANCE

In amendment of Section 11, Chapter VIII of the Revised Ordinances.

Be it Ordained, By the Mayor and Aldermen and Common Council of the City of Nashua, in City Councils assembled as follows :

That Section 11, of Chapter VIII of Revised Ordinances, be amended to read as follows : The Engineer, officers and members of the Fire Department shall receive for their services per year as follows : Chief Engineer, (who shall perform the duties of Steward, as set forth in Section 14, Chapter VIII of Revised Ordinances, in addition to his duties as Chief Engineer), One Thousand Dollars. First assistant Engineer, Ninety-five Dollars, other assistant Engineers, Ninety Dollars. Clerk of the Board of Engineers, Twenty Dollars in addition to pay as assistant Engineer.

The Engineer of the Chemical Engine shall also perform the duties of assistant Steward, and shall receive Sixty-five Dollars per month. Engineers of Steamers, Ninety-five Dollars. Company clerks and foremen of companies, Eighty Dollars. Assistant foreman, Seventy-five Dollars. Members of Engine, Hose, Hydrant, Hook and Ladder, or Chemical companies, Seventy Dollars.

Except officers and members of Belvidere Hose Company No. 2, who shall receive as follows : Foreman and clerk, Twenty Dollars, members of company, Fifteen Dollars, provided that

no member shall have any pay as such, unless he shall have served three months in succession, except in case of death or disability from sickness, and shall have faithfully performed all the duties required of him by this chapter to the acceptance of the Board of Engineers.

The clerks of the several companies shall make up their pay-rolls semi-annually to the first day of April and October respectively, and by them passed over to the Board of Engineers for their approval, with the names and number of times that any members, including all officers of the Fire Department, are absent from fires, and for every time that any member is absent from such fires, the City Treasurer shall deduct the sum of One Dollar.

To take effect after the first day of January, 1891.

All Ordinances hereby in force conflicting with the above are by this act repealed on its passage.

Passed Aug. 13, 1890.

A true copy—Attest,

C. S. BUSSELL, City Clerk.

CITY OF NASHUA,

In the year of our Lord one thousand eight hundred and ninety-one.

AN ORDINANCE

In amendment of Chapter VIII of the Revised Ordinances.

Be it Ordained, By the Mayor and Aldermen and Common Council of the City of Nashua, in City Councils assembled, as follows :

That Chapter VIII of the Revised Ordinances be amended as follows by repealing the whole of Chapter VIII and substituting the following :

SECTION 1. The Fire Commissioners shall receive the sum of One Hundred Dollars per year each in full for all services except that if the Clerk of the Board of Fire Commissioners shall be a member of said Board, he shall receive the sum of Twenty-five Dollars per year in addition to the sum before mentioned.

SEC. 2. The Chief Engineer shall receive the sum of One Thousand Dollars per year in full for all services. The four Assistant Engineers shall receive the sum of Ninety Dollars per year each in full for all services. The Clerk of the Board of Engineers shall receive the sum of Ten Dollars per year in addition to his pay as Assistant Engineer. The Engineer of the Chemical Engine shall receive the sum of Sixty-Five Dollars per month in full for all services.

SEC. 3. Engineers of Steamers shall receive the sum of Eighty-five Dollars per year in full for all services. Stokers shall receive the sum of Eighty Dollars per year in full for all services. Company Clerks and Foremen of Companies,

Eighty Dollars per year, Assistant Foremen, Seventy-five Dollars per year. Members of Engine, Hose, Hydrant, Hook and Ladder and Chemical Engine Companies, Seventy Dollars per year, except Officers and Members of Belvidere Hose Company, who shall receive as follows: Foreman and Clerk, Twenty Dollars; Members of Company, Fifteen Dollars per year, all of above sums in full for all services. All salaries fixed in this Chapter, except permanent men, shall become due and payable semi-annually, on the first days of January and July of each year. The salaries of all permanent men shall be payable monthly on the first day of each month for the month preceding.

SEC. 4. Drivers of one horse shall receive the sum of Fifty-five Dollars per month. Drivers of two horses shall receive Sixty Dollars per month payable on the first day of each month for the month preceding. The above sums shall be in full for all services.

SEC. 5. This Ordinance shall take effect on its passage.

Passed March 10, 1891. .

Attest,

E. M. BOWMAN, City Clerk.

CITY OF NASHUA,

In the year of our Lord one thousand eight hundred and ninety-one.

AN ORDINANCE

In amendment of Chapter IX, Revised Ordinances of the City of Nashua.

Be it Ordained, By the Mayor and Aldermen and Common Council of the City of Nashua, in City Councils assembled, as follows :

That Chapter IX be amended as follows : By repealing the whole of the present Chapter IX, and substituting the following :

SECTION 1. It shall be the duty of the Street Commissioner under the general supervision of the Board of Mayor and Aldermen to superintend the streets, roads, sidewalks, lanes, bridges, public walks and squares of this city. To attend the making or alteration of said highways and squares, to cause the same to be kept in good and suitable repair.

SEC. 2. To superintend the repair and cleaning of any sewers or drains therein. To superintend the setting of such edgestones as may be ordered by the Board of Mayor and Aldermen

SEC. 3. The said Commissioner shall make all necessary arrangements for keeping the streets clear and in good order, and in case of obstruction or defect shall cause the same to be properly marked by fencing by day, and by lanterns and fencing at night. He shall give immediate notice to the Mayor and City Marshal of any nuisance, obstruction or encroachment in or upon any of the said highways or squares.

SEC. 4. The Street Commissioner shall make full and detailed reports of all expenditures and work done in his department whenever requested to do so by the Board of Mayor and Aldermen, and shall make annually in the month of January a report to the Board of Mayor and Aldermen of the work and expenditures of the preceding year.

SEC. 5. He shall make all contracts for labor and material necessary to a proper discharge of his duties, such contracts to be subject to the approval of the Board of Mayor and Aldermen; at no time shall the amount expended by him in the course of his duties exceed the amount appropriated therefor by the City Councils.

SEC. 6. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed. This ordinance shall take effect on its passage.

Passed March 10, 1891.

Attest,

E. M. BOWMAN, City Clerk.

REPORT
OF THE
CHIEF ENGINEER
OF THE

Lafaver, as laundry and stable; value of building, \$600; damage, \$340; insurance, \$200; paid, \$200. Value of contents, \$2,000; damage, \$50; insurance, \$1,000; paid, \$50; cause, incendiary.

APPARATUS AND HOSE.

The apparatus consists of three Amoskeag steam fire engines, one Babcock Chemical engine, three one-horse hose carriages (two of them ought to be condemned, they are not safe), one horse hose carriage, and one hook and ladder truck; all are in good condition with the exception of the two hose carriages. There are at present belonging to the Department, 9,500 feet of fabric hose, 2,000 feet of which are not reliable for fire service. There has been purchased the present year, 2,500 feet of new hose.

MANUAL FORCE.

The department consists of a Chief Engineer, four Assistant Engineers, seventeen members each of engine companies, Torrent, No. 1, and Niagara, No. 2; five members of Chemical Engine, No. 1; twelve members of Pennichuck Hose Co., No. 1; twelve members of Belvidere Hose Co., No. 2; eighteen members of Union Hook and Ladder Co., No. 1; six drivers; total, ninety-two.

RESERVOIRS AND HYDRANTS.

Nine post hydrants were purchased and set in new localities the past year, and all are in good condition.

FIRE ALARM TELEGRAPH.

This valuable branch of fire service is in good condition. There has been more or less trouble the last few months with crosses with Electric Light wires, which run too close to the alarm wires. The copper wire is too small and I would recommend that it should be taken out and No. 9 iron wire put in its place; also that there should be some way provided for a better alarm in Ward 6 and Ward 8, as we have a large number of firemen in these two wards.

There have been two new fire alarm boxes put in this year; one at the corner of Lake and Pine streets, and one at the corner of Arlington and Williams streets, No. 45. I would also renew the suggestion of my predecessor in his last report that a new hook and ladder truck of modern design be purchased, and a pair of swing harnesses for the same; also a pair of horses should be kept in the stable ready for use.

The hook and ladder house has been removed to Quincy street, and fitted up for Steamer No. 3, Hook and Ladder and Pennichuck Hose, No. 1, and is in good condition.

There has been one swing harness purchased this fall for the Hose carriage, and all that is required is a horse, to be kept in the stable ready for use.

To his Honor, Mayor Burke, and the Committee on Fire Department, I wish to express my thanks for the interest they have taken. We are truly grateful to the officers and members of the Department for the faithful manner in which they have performed all duties they have had set before them. I tender my sincere thanks and appreciation.

Respectfully submitted,

GEORGE R. HOLT,
Chief Engineer.

LOCATION OF FIRE ALARM BOXES.

No. 16—Corner Clinton Street, Railroad Square. Keys at Reed's market, Laton House, W. O. Flander's stable and on box.

No. 18—Locust, corner Winter Street. Keys at W. S. Jackman's, 13 Locust Street, Allen Wilson's, corner Franklin and Locust Streets, and Isaac Eaton & Son's shuttle works, Charles Street.

No. 67—Corner Lake and Vine Streets.

No. 45—Arlington, corner Williams Street.

Also key will be found in the hands of all regular police.

INSTRUCTIONS TO KEY HOLDERS AND CITIZENS.

Upon the discovery of a fire, go to the nearest box to the fire, unlock the box and pull down the hook as far as you can, and then let go, shut the door, do not try to remove the key, as it is locked in and can only be removed by one of the engineers, who will as soon as convenient release and return it.

All persons giving alarms should remain awhile, if possible, by the box, so as to direct the firemen to the fire.

No person must give an alarm for the same fire after the first alarm has been given, without an order from engineer or officer in command, and the person so ordered will be sure and go to the same box from which the same alarm was given, and report the same to the Chief Engineer.

Never signal for a fire seen at a distance. Never touch the box except to give an alarm of fire. Don't give an alarm for a chimney fire. Never let the key go out of your possession, unless called for by the Chief Engineer. If you change your place of residence or business, where the keys are kept, return the key to the same officer.

CITY MARSHAL'S REPORT.

CITY MARSHAL'S OFFICE, DEC. 31, 1891.

To his Honor the Mayor and Board of Aldermen :

GENTLEMEN :—I most respectfully submit this my fifth annual report of the City Watch and Police Department of the City of Nashua for the year ending Dec. 31, 1890.

The City Watch at this time consists of fourteen men, including the Marshal, and are assigned to duty as follows: The Marshal, Assistant Marshal, A. C. Blaine and H. A. Ballou as day officers; the night force consists of a captain of the watch and nine patrolmen. Capt. Geo. W. Davis was detailed for duty in place of C. E. Buckham resigned in the month of March. James Ryan was detailed to run the new Crown Hill beat. On account of the inefficiency of the officer on Ward 7 beat, B. W. Parker was detailed to run the same, which he did for the balance of the year. Special officers are detailed for duty to fill vacancies in the absence of regular officers, Sunday duty and at many other times when extra duties are required. The special officers are paid quarterly and from the funds received through the police court. The following report will give a general account of the business of the department during the past year:

CITY WATCH APPROPRIATION AND PAY-ROLL.

Amount of pay-roll for the year,	\$9,447 00
Appropriation,	8,500 00
	<hr/>
Overdrawn,	\$1,937 00

There are thirteen officers to be paid from this appropriation, and the actual sum required to pay the same, providing each officer made no extra or had no lost time, would be Nine Thousand, Four Hundred and Ninety Dollars (\$9,490 00), consequently the overdraw could not be avoided.

POLICE DEPARTMENT.

This department is distinct from that of the city watch and no appropriation is made for it, but its funds consist of fines and costs received through the police court and from the sale of writs by the clerk of the police court. All expenses chargeable to the police department, such as pay-rolls for special police duties which are made quarterly; food supplies for lodgers and prisoners; horse-hire, traveling and other expenses; telephone service, telegraphing, ringing of bells, equipments for officers and police station supplies, are paid from these funds.

Amount of fines and costs received

through the Police Court, . . .	\$3,813 14
Received for show licenses, . . .	229 00
Less witness fees and incidentals, . . .	\$416 36
	<hr/>
Paid to City Treasurer, . . .	\$3,625 78

POLICE OFFICERS AND SOME OF THE DUTIES PERFORMED.

The duties of the police each year are of a similar nature, as it is always of a criminal character. Yet they differ in the seriousness of the offenses—as it would generally be conceded [that the more serious, the less liable to arrest and conviction; which is largely true even if great effort is made. The city has been fortunate as regards burglary, the whole number being twenty. With but one or two exceptions they have been of a character that would indicate the work of boys or non-professionals, at least. In one exceptional case a large amount of goods was stolen and the parties were not captured.

There have been quite a number of incendiary fires and several attempts at arson. This is considered one of the most serious crimes that the public has to contend with, and is so under the General Laws of the state. Yet very few of those who commit this crime are arrested and convicted. But during the past year three have been arrested, two of them have been indicted, one is serving sentence in state prison and one is in jail awaiting the action of the grand jury at the March term of court, and all the officers who were instrumental in capturing and bringing such criminals to justice are intitled to a great deal of credit, as I think this record is unparalleled in the history of the city, and I believe much good criminal work has been done and that there have been as good officers in the department during the past year as there has been at any time during my experience, most of them having served for the past four years, and good men will improve as officers with time and experience. I think the present system by which the police are elected at no far-distant day will be simply a matter of record, as other cities have declared the political system to be decidedly wrong.

PROBATION FOR PRISONERS.

There may be a wide difference in opinion in regard to probation for prisoners under arrest for certain offenses, but it is my firm belief that a reasonable amount, at least, should be allowed every year, as in such cases as this privilege would be exercised there are many peculiar and perhaps lamentable facts which are worthy of consideration. In many cases it is possible that others who are innocent are made to suffer on account of a sentence being rigidly enforced, when if the prisoner could be put on probation during good behavior, and through his good conduct and labor would prevent the family from suffering even for a short time, some good would be accomplished. I have known many cases where they would continue for a long time and a great deal of benefit would be derived from it, while others would soon be brought face to face with justice on the

sentence originally suspended and which would then be enforced as of course must be done. Police Justice Hon. C. W. Hoitt, during my experience as Marshal, has always been willing to grant any reasonable request in this direction. In his absence Associate Justice Wm. O. Clough sitting is never found wanting in liberality in matters of this kind.

POLICE STATION.

The police station and the location of our police court have given rise to much deserved criticism and complaint, and the question of a new one being agitated in the early part of the year, and after due consideration by His Honor, Mayor Burke, and the City Council, it was decided that one should be built on the city lot in the rear of the city hall building, which today is near completion. It is beautiful in design and has all of the compartments required in a building of this kind, containing twenty-eight cells and hospitable cell, office for the Marshal and one for the Assistant Marshall, guard room for the police officers, police court room, judges' office, and also one for the clerk, and when completed and occupied will be an ornament to our city, and a credit to His Honor, Mayor Burke, and the building committee to have such a building, which was long needed and is of sufficient capacity for many years to come, built during their term of office.

CONCLUSION.

Much valuable assistance has been received from officers in other cities and in all cases where like assistance could be given it has been my endeavor to do so, as much depends upon co-operative action.

To His Honor, Mayor Burke, members of the city council and committee on police, your confidence and co-operation I ap-

preciate. The Justice of the Police Court, Hon. C. W. Hoitt, and Associate Justice, Wm. O. Clough, City Solicitor, C. J. Hamblett, and ex-City Solicitor, J. J. Doyle, who resigned in the middle of the year, for the kind indulgence and valuable council I can but return my many thanks.

Respectfully submitted,

W. C. TOLLES,

City Marshal.

REPORT

OF THE

City Engineer.

To His Honor, the Mayor, and the City Councils:

GENTLEMEN:—I herewith respectfully submit the first annual report of the City Engineer's Department of the City of Nashua for the year ending December 31, 1890.

EXPENSES OF THE DEPARTMENT.

(Not including salary of City Engineer.)

For services of Assistant,	\$298 55
For field instruments,	430 70
For furnishing office,	112 31
For materials for office,	70 03
For horse hire and car fare	36 00
For blue point frame,	15 23
For tools, spikes, etc.,	23 89
For stakes,	30 05

Total,	\$1,016 76
Value of instruments, etc., on hand,	\$575 00

Since April 1, 1890, at which date I entered upon my duties, the work of the office has been in outline as follows:

There had not been any regular office for the City Engineer, nor did the city own any field instruments. The first thing to do was to get these. A pleasant, but not too commodious room

in City Hall was found. Some alterations in the room were made, a drawing table, cases for plans, desk, etc., were put in at a cost of \$112. A Fauth transit and Buff & Berger level, also the necessary rods, tapes and other implements for field work were purchased at a cost of \$430 70. A system of indexing plans and field notes was established. Though up to this date I have not had time to fully carry it out, there will soon be a complete card index to all plans in the office.

STREETS.

A considerable portion of the work during the first part of the season was giving grade and line for setting edgestone for sidewalk. The total number of linear feet of edgestone set in 1890 was 11,048, equal to about 2.1 miles. In Appendix A is a list of the streets in which new edgestone has been set, also those on which old stone has been reset.

I am concerned with streets only as to grade and alignment. During the year many new streets have been laid out and accepted. The greater number of these are in the southeast part of the city. After much labor and controversy a portion of Lake street, some 5,700 feet in length, between the Acton R. R. and Dunstable Road, has been widened and straightened. Streets accepted during the year are as follows:

STREETS ACCEPTED 1890.

Name of Street.	From	To	Width in ft.	Length in feet.
*Ash	Lake street	Lovell street	40	485
Beasom	Concord street	Granite street	40	300
*Brook	Burritt street	Chestnut street	40	343
*Chestnut	Lake street	Lovell st. (propos'd)	40	665
Forest	Sargent's Ave north		60	2200
*Fulton	Brook street	Salmon Brook	38	260
Gray's Ave	Bowers street	Gillis street	30	322
Hamilton	Lake street	Brook street	40	400
King	Allds street	Arlington street	50	2104
Lake	Pine street	Dunstable Road	40	5711
*Newbury	Haines street	Burke street	40	773
Spalding	Allds street	Benson's Ave	40	697
Underhill	Arlington st. west		50	1627

*Extension of street.

Total 15,883 feet.

Grade and line for grading of streets have been given on :

Haines street	1980 feet
Chandler street	300 "
Chestnut street	650 "
Hamilton street	400 "
Brook street	340 "
Franklin street (grade only)	600 "
Lake street (line only)	2300 "
Canal street	660 "
Total	<hr/> 7230 feet

COMMONS AND SQUARES.

Under this head little has been done in the line of improvement during the year, except on Abbot Square. This has been improved by putting a low rounded curb, in the shape of an octagon, about the base of the soldiers' monument. Plans and specifications for this were furnished early in the season, and the curbing was in position previous to Memorial Day. The material is Concord granite, and the curb in position cost \$330. June 9 plans and specifications were furnished for a curbing around Abbot Square. Owing to the unshapely figure of the square, it was not an easy matter to design for it a curb, with arrangements for walks, etc. The stone work was in position September 30th. It was furnished and set by C. W. Stevens, contractor, for \$744.

The concreting of walks and grading of the square was immediately attended to and the work of seeding down finished.

A concrete sidewalk with edgestone was put in entirely around the square in October, so that now the work is entirely finished at a cost of \$1650.

CEMETERIES.

At Amherst Street cemetery a portion on the westerly side having been cleared, 420 new lots were staked out.

At Hollis Street cemetery 240 lots were staked out in the southwesterly part.

The City tomb has been much enlarged, it having been extended on the old lines back 24 feet. The cost of the extension was about \$1850.

SEWERS.

During the year a total of 8089 feet of pipe sewer and 1233 feet of brick sewer has been constructed.

In Appendix B is a list of all sewers built in 1890.

In Appendix C is a list of all public sewers in use Jan. 1, 1891, besides those constructed in 1890. This list though not accurate, is taken from the best records at hand.

From May 1st to October 1st, Supt. of Sewers, L. M. Valcour was engaged in constructing pipe sewers. A force in charge of J. D. Sullivan was also putting in pipe sewers from May 21 to July 12.

There were several calls for repairs to be made. Usually the trouble was caused by the sewer becoming full of sand and debris, so it had to be flushed out under hydrant pressure, or taken up and re-laid.

The first work was the building of sewer in Bowers Street to intercept, at Main Street, the sewer from Kinsley Street to Harbor Pond.

Some 800 feet of pipe in Morgan and Tolles Streets was taken up, the 10 inch pipe being replaced by 15 inch pipe.

The sewer in Temple Street, from Hollis Street, was extended several hundred feet west of the Wilton Railroad crossing, and with the idea that sometime it may intercept sewer from Pearl Street, now discharging into the Nashua River.

In tapping sewers this year we have found, except in a few instances, the pipe itself in fair condition, but in very many cases the pipe has been found half or two-thirds full of sand or debris from the street. Usually this state of things is explained by examining the surface water inlets, as it is found that the

inlets lead directly to the sewer, or if there is a basin, it has become full of sand.

There are altogether too many of the old fashioned direct inlets still in use about the city, and they should be replaced by inlets with basins for catching material washed in from the street.

Apparently it is the impression of many that a sewer once properly constructed, is something which will do its work without looking after and expense of maintenance.

One very important thing is to keep the material of the street from getting in and filling up the sewers. This we are not doing at present. To go around once in the fall and clean out the sand basins is not sufficient. In some parts of the city the street grades are more or less steep, and the soil being sandy, the basins are soon filled, but, like the basins on paved streets, they remain till the annual cleaning. By and by it is reported that the sewer is clogged, and 'tis not an easy matter to wash out a pipe packed with sand.

I believe the looking after and cleaning of the catch-basins should be the duty of the Superintendent of Sewers, instead of the Street Department.

Another matter in which I respectfully urge reform is that of making connections with public sewers. Under the present system we simply know from the permit that a certain abutter makes a connection with the sewer. We do not know the location of the connection nor whether it is properly made. The job is done by any one and oftentimes by persons who know little and care less about doing it in a proper manner. A hole is knocked in the pipe, the connecting pipe is left projecting far into the main pipe and at right angles to it. Then people wonder the sewer does not work. I think it is best that all connections be made by the city and an accurate record of them kept, the cost to be paid by the abutter.

Artillery Pond Sewer.—Owing to the pressure of work during the early part of the season, it was impossible to take levels and get out plans for the completion of this sewer till the middle of

June. The plans were approved by Mr. E. S. Dorr, Engineer in the Boston Sewer Department, and work was commenced July 11. One Carson excavating machine was used from this date to the finish. A second machine was used from Oct. 1 to about the middle of December, at which time the sewer was completed in Amherst and Merrimack streets. In the Amherst street section (length 853 feet) the sewer was 4' 6" in diameter. The average depth of trench was 25 1-2 feet and between 230 and 240 cubic yards of ledge and boulders had to be blasted out. In the Merrimack street section (length 380 feet) the size of the sewer was 3'x4' 6" and the average depth of trench was 20 1-2 feet. Five manholes in all were put in and chimneys for the connecting of house drains, etc., were built up at suitable intervals. The remaining 230 feet to finally connect with the pond is a small part of the job. That can best be done without an excavating machine and ought to cost from \$800 to \$1000, making the total cost from end of construction 1889, \$18,000 to \$18,500.

GENERAL FIELD-WORK.

An important matter, which, evidently, has not received much attention in the past, is the location of the city *vertically* as well as horizontally, especially with regard to streets and sewers.

In 1871 Mr. J. F. Stark established a City Datum which was taken as low water in Merrimack River at Taylors Falls Bridge. The levels and profiles made by Mr. Stark were referred to this datum. Though most of his bench-marks have been destroyed, I have succeeded in establishing bench-marks which correspond near enough to those of 1871, and have extended the levels so that now we have the relative elevation of bench-marks in nearly all portions of the city, accurately determined. From such established elevations all levels for sewers are now made, and the same for streets.

In accordance with City Ordinances it is my duty to make profiles of all streets and draw on these profiles, grade lines,

which, when accepted by your Board, indicate the established grade of the streets.

It has been my purpose to accomplish as much as possible in this direction, particularly in the newer parts of the city. In the southeast portion, levels for profiles have been taken on nearly all of the streets. In many cases three lines of levels were taken; one for the centre of the street and one for each side line. Also where necessary the elevation of sills of houses were taken.

As soon as profiles can be drawn they will be presented for acceptance.

The following is a list of the streets which have thus been surveyed:—

Name of street,	From	To	Approximate length in feet.
Allds	Franklin street	Burke street	4100
Arlington	Temple "	Harbor Ave.	3350
Ash	Lake "	south	500
Beasom	Concord "	Granite street	300
Bowers	Main "	east	4328
Brook	Fulton "	Chestnut street	650
Burritt	Brook "	Lake "	400
Canal	east of R. R. Square		800
Chandler	Canal street	Linden "	1809
Chestnut	south of Lake street		675
Concord	Wilton R. R.	Greeley Farm	5700
Fulton	south of Lake street		650
Gray's Ave.	Gillis "	Bowers street	323
Gillis	Allds "	eastward	1800
Haines	" "	Arlington street	2000
Hamilton	Lake "	Brook "	400
Harbor Ave.	Hollis "	Allds "	3100
Highland	Auburn "	Fairmount "	625
Jefferson	Chandler "	Cross "	985
King	Allds "	Arlington "	2100
Lake	Main "	Almount "	5000
McKean	Allds "	Arlington "	1725
Marshall	" "	Hollis "	3000
New	near Bowers "	Bowers "	472
Spalding	" Allds "	Allds "	700
Tolles	Canal "	Laton "	2100
Williams	Allds "	Arlington "	1500

Total, 49,087.

Considering that three lines of levels were taken over half the distance the total length of profiles equals $49087 \times 2 = 98174$ feet, or 18.6 miles. Besides the work of surveying and levelling in connection with streets and sewers, we have responded to

many calls, for line and grade of streets, from parties who were grading or otherwise improving their premises; also for line and grade for street railway track.

A survey was made of the new police station lot and batters set for the building.

In conclusion I have to thank His Honor, the Mayor, and the gentlemen of the various Committees for their kindness and confidence, and the other city officials for their courtesy and co-operation.

Respectfully submitted,
HARRY B. BURLEY,
City Engineer.

CHANGE OF NAMES OF STREETS.

In Board of Aldermen, Sept. 16th, 1890. Report of Committee on Highways and Bridges.

Alld's Road	to	Alld's Street.
Bowery Street	"	Otterson.
East Bowers	"	Scripture.
East Olive	"	Olive.
East Prospect	"	Gillis.
Edgeville Road	"	Burke.
Hall	"	Rogers.
Lincoln	"	Morrill.
North Central	"	Whitney.
North Elm	"	Tolles.
North Pine	"	Norton.
North School	"	Beard.
South or East Auburn	"	Cook.
South Central	"	Central.
South Elm	"	Elm.
South Fulton	"	Fulton.
South Middle	"	Middle.
South Oak	"	Oak.
South Pine	"	Pine.
South School	"	School.
Taylor Road	"	Taylor.
West Bridge	"	Baldwin.
West Olive	"	Sawyer.
West Quincy	"	Gilman.

In Board of Aldermen accepted and Street Commission ordered to change signs and that records be made to correspond with above order.

C. S. BUSSELL,
City Clerk.

THE TWENTY-FOURTH ANNUAL REPORT

OF THE

Trustees of the Nashua Public Library.

To the Honorable City Council:

The Nashua Public Library was established in 1867. It had for a nucleus, by donation, the books of the Union Athenæum and of the library furnished by the Nashua Manufacturing Company for the use of its employes. By semi-annual appropriations of \$500 by the city, during the past period of almost a quarter of a century, it has gradually attained its present growth of nearly 10,000 volumes. Last year, in consequence of the extraordinary expenses of the library, the number of volumes added was only about one hundred. The liberal additional appropriation by the city enabled the Board of Trustees to tide over those extraordinary expenses. This year, it is to be hoped, that the city will increase the semi-annual appropriation which has been made for the past twenty-four years. The city of Nashua has grown to be the second in the State, and the increased appropriation suggested could be made without detriment to the other interests of the city demanding its fostering care. There are several farming towns in the State which have established public libraries, and, undeterred by the presence of "abandoned farms" in their midst, make liberal contributions in aid of their libraries in proportion to their resources, anticipating the time when those farms shall again blossom and the depleted population shall regain its former number. Nashua, in this, its day of prosperity, ought to do its full share towards keeping up the intelligence of its citizens and particularly that

of its rising generation to its former maximum. The city council should bear in mind that the demands upon the library have been largely increased, as compared with former years, in consequence of the extraordinary increase in population, the number of the readers of books being largely in excess of those in the day of the city's restricted means.

During the past two years, many valuable publications have been issued from the press which ought to be in our library. Those works are of a solid and useful character. If introduced upon the shelves of our public library they would be read with avidity. We have no doubt of this from the fact that the exclusive readers of works of fiction are diminishing. The report of the Librarian, this year, shows this. The readers of works of history, travels, biography, and of books of a scientific and practical character have quadrupled during the past decade. Works of a purely imaginative character are not so much sought for and devoured by the reading class of the community as formerly. This improved aspect of the situation is worthy of attention, and the change should be promoted and cherished.

In their last annual report the Board urged the importance of a liberal recognition of the public library by the city council, on the ground that it is an aid to and "supplements the public school as a source of general intelligence and culture, adds to the enjoyment of domestic and social life, affords specific information, not otherwise attainable, upon subjects of interest and importance." This point deserves to be further emphasized.

It is a fundamental idea in New England, at least, that each city and town in the State is in duty bound to furnish every child within its precincts, male and female, with an education. This duty is not only recognized by law, it is rendered the imperative duty of each city and town to see to it that every such child shall be compelled to acquire such education. This duty is imposed upon the community by the truant laws and they should be rigidly enforced. In the eye of the law the safety of the community demands it. Otherwise, these would eventually be left in nearly every community an ignorant, brutal and uncivilized

clan or horde that would endanger the public peace and have a tendency in the end to vegetate portions of the body politic to pre-historic barbarism. In view of this duty imposed upon the public, the Legislature of New Hampshire, at its session in 1889, took an advanced position by passing an act requiring the school committee of every city and town to purchase, at the expense of such city and town, text books and other supplies used in the schools, to be loaned to the pupils, free of charge, for their use and instruction.

The public school and public library walk hand in hand together. Through the public school the rudiments of education are imparted to each child, and his mind is disciplined. Through the public library, an opportunity and the means are furnished to perfect and render practical the rudimentary education of the public school. To the advanced scholars in the public schools the public library is of great assistance, furnishing books of reference and more enlarged and minute instruction than can be found in the regular text books of the public school. In the work of writing compositions on themes, the aid of books furnished by the public library is of very great importance and cannot be obtained, except by a resort to some other public library, at a distance of several miles.

To that large class of our citizens of both sexes, whose means are so limited as to preclude the purchase of books, the public library is of immense benefit. This will be apparent to the City Council, and the subject needs no elucidation.

The Dewey system of shelf-arrangement, with card catalogue, like that in the Boston Public Library, and fully described in our last annual report, has been in practical use, for the past year or more, in the Nashua Public Library, and gives perfect satisfaction. The books have been catalogued in accordance with that system, and the manuscript is in the hands of the printer, and will be put in print and soon in possession of the public.

We record the death of Hon. John H. Goodale, one of the members of the Board of Trustees, which occurred in this city,

during the past year. Only two other Trustees, in the past, have died during their official life, viz., the late Col. Edward P. Emerson and Hon. Samuel T. Worcester. Mr. Goodale was a native of Deering, this State, born October 2, 1816. He labored on a farm until he was seventeen years of age; fitted for college at Newbury, Vt.; graduated at the Wesleyan University, at Middletown, Conn., in 1840; taught school at Columbus, Ga., for five years; was a journalist at Manchester from 1848 to 1860; went to California in 1864; travelled in Alaska and British Columbia in 1837; returning to New Hampshire in 1869, he was Secretary of State in 1871-2; was Superintendent of the Public Schools, in this city, from 1875 to 1878; and was a member of the Nashua Board of Education, at the time of his decease. He was the author of the History of Nashua, in the "History of Hillsborough County," which was published in 1885, as well as of several biographical notices. Mr. Goodale took a marked and active interest in the success of the Nashua Public Library, and, by his decease, that institution as well as the city have experienced a great loss. It will be incumbent upon the City Council, in conjunction with the Board of Trustees, in joint convention, to fill the vacancy for his unexpired term, during the approaching month of April.

At the annual meeting of the Board of Trustees of the Public Library, held at the Library rooms, February 7th, 1891, the following officers were chosen for the ensuing year: V. C. Gilman, clerk and treasurer; Harriet Crombie, librarian; Dr. E. Spalding, W. W. Bailey and V. C. Gilman, committee for the purchase of books; Mayor W. H. Beason, B. B. Whittemore and V. C. Gilman, committee on library rooms; Geo. A. Ramsdell, auditor; Dr. E. Spalding, W. W. Bailey and V. C. Gilman, committee to confer with the City Council on matters

pertaining to, and in the interests of, the Public Library. All persons desirous of information in relation to the Public Library can consult either of the foregoing committee or individuals.

Respectfully submitted,

WILLIAM H. BEASOM,
FLETCHER W. BURNHAM, } *Ex-Officio.*
EDWARD SPALDING,
CHARLES HOLMAN,
GEORGE A. RAMSDELL,
BERNARD B. WHITTEMORE,
WILLIAM W. BAILEY,

Trustees of the Public Library.

To the Trustees of the Public Library:

In the year 1890, the Library was open two hundred and eighty-one days. The average number of books given out, per day, was eighty. Of that number less than two-thirds were works of fiction, a proportion much smaller than in most public libraries.

The card catalogue has been of great service, particularly to teachers, scholars, and those interested in special subjects. It is generally used, but as there is but one case, all who wish are unable to have access to it. This adds to the difficulties of the taking and giving of the books, showing the need of the new catalogue. Many of the books are too worn for circulation; entire sets of standard authors need replacing; the whole appropriation would not be more than sufficient to do what is desirable.

Books in the library Jan. 1, 1891,	9,642
Number of new cards issued,	407
Money received from fines,	\$54.95
Received from sale of duplicate books,	18.55
Library expenses, incidentals,	8.00

AUDITOR'S REPORT.

This is to certify that I have examined the foregoing account of the Treasurer of the Public Library, and find the same correctly cast, and the disbursements sustained by proper vouchers and the balance in the hands of the Treasurer. as shown.

GEO. A. RAMSDELL, Auditor.

REPORT

OF THE

CITY SOLICITOR.

To the City Council of the City of Nashua:

GENTLEMEN:—I submit my report as Solicitor from the date of my election, August 13, 1890, to December 31, 1890.

When I assumed the duties of the office there were twelve actions pending in our Supreme Court in which the city was a party. Five have been disposed of, and there are seven still pending.

PEACOCK VS. NASHUA:

This action is for injuries claimed by the plaintiff to have occurred in the highway on Allds Road on the 9th day of July, 1886. It was tried September, 1888, and the Jury disagreed. This action was tried again in September, 1890, and the jury again disagreed. It is now marked for trial.

GREELEY VS. NASHUA:

The plaintiff petitions the Court for an increase of damages, awarded by the Board of Aldermen, in the extension of Buck street. No progress has been made in this case since the last report of Judge Hoitt in 1888.

The following cases were settled:

HACKITT VS. NASHUA:

This action was brought to recover for injuries to the plaintiff received on the highway near Bridge street, on the 9th day January, 1889. Settled without jury trial for \$100, which sum has been paid.

WHITNEY VS. NASHUA:

This action was brought by the plaintiff to recover for injuries received on West Pearl st on the 12th day of February, 1889.

Settled without jury trial for \$1000, which sum has been paid.
BOISSEAU VS. NASHUA:

This action was brought to recover for injuries received on Myrtle street on the 17th day of February, 1889. Defective sidewalk. Settled without jury trial for \$600, which sum has been paid.

JOHN PETERS VS. NASHUA:

This action was brought for injuries to the plaintiff's team caused by an obstruction in the highway on West Olive street. Settled without jury trial for \$120, which sum has been paid.

HELEN PETERS VS. NASHUA:

This action was brought for injuries received by the plaintiff caused by an obstruction in the highway on West Olive street. Settled without jury trial for \$200, which sum has been paid.

The following actions are now pending:

FRANK W. STRATTEN VS. NASHUA:

This action is brought to recover for injuries received by the plaintiff, as he alleges, on the highway near Luther Roby's farm, on the 26th day of May, 1889.

PERKINS VS. NASHUA:

This action is brought for injuries received on Maple street on the 11th day of December, 1889, as she alleges, by reason of a defect in the sidewalk.

DELACOMBE VS. NASHUA:

In this action the plaintiff seeks to recover damages for injuries received while the plaintiff was employed in the construction of the sewer on Cross street, on the 25th day of October, 1889.

MANNING VS. NASHUA:

This action is brought to recover damages for injuries received by the plaintiff on the 22nd day of February, 1890, by reason of a defect in the sidewalk on Fletcher street, the same being icy.

SMITH VS. NASHUA:

This is an action brought to recover damages for injuries to certain shade trees caused by moving a certain building through Church street, on the 13th day of June, 1890.

I have attended several meetings of the Committee on Claims during the time I have been Solicitor, at which several claims have been considered and adjusted.

I have tried all cases in the Police Court, in behalf of the State, when called upon by the City Marshal.

Respectfully submitted,

C. J. HAMBLETT,
Solicitor.

SPECIAL COMMITTEES.

EVENING SCHOOLS.—Messrs. Tolles and Eaton.

MILITARY AND PHYSICAL TRAINING.—Messrs. Atherton, Tolles and Pierce.

DRAWING.—Messrs. Vickery and Flather.

SUPERINTENDENT'S REPORT.

To the Board of Education, Nashua, N. H.:

GENTLEMEN:—In accordance with the regulation, I submit my first annual report, the twenty-fourth of the series.

First of all I wish to thank most heartily your Board, individually and collectively, the teachers, and all others connected with the schools, for many courtesies and favors, and for strong support. I assure all that I appreciate their kindness beyond expression. My predecessor in office took great pains to leave all affairs connected with it in the best possible condition, for which I did, and do again, express my gratitude.

The school department had at its disposal last year \$47,842.99, expended \$47,635.30, and thus had a balance to its credit of \$157.69. The furnishing of free text books and supplies, the opening of the Arlington St. School, the repairing and improving of some buildings brought the expenses to a higher figure than usual. The control and distribution of supplies is not the least of the superintendent's cares, but the amount of labor done by the supply committee, their careful oversight, their patience, have reduced the work and worry. A simple business-like system of accounts has been introduced. Our schools are now well supplied with necessary material for good work and unless the unforeseen happens, no extraordinary expenses like those of last year will have to be met for some time. No department in city affairs is more carefully and economically managed than the department of schools by the Board of Education.

BUILDINGS.

The cost of keeping some of the smaller buildings in repair is considerable. If the city increases, as seems likely, a system of

consolidation will probably be determined upon and some of the smaller buildings given up to other uses. A few minor repairs have been made at the Spring St. School. The need here is of a good physical laboratory. A new partition, blackboard and radiator were put into Mt. Pleasant hall to adapt it somewhat to school uses. The Arlington St. School was fitted with storm doors. The Harbor School has been improved by painting throughout. At the Mulberry St. School a new shed, a modern closet with sewer connection, and a new cloak room have been built. Besides these, the building has been painted and the grounds graded. The Palm St. building has been shingled and painted throughout. The buildings in suburban districts 2 and 4 have been painted and new sheds have been added to them. A new wooden partition was put in at the Belvidere School, as a class had to be divided. During the coming year attention will probably be given to the Belvidere, O'Donnell and Main St. buildings. Your Board is well aware of the condition at Mt. Pleasant School from a report, carefully drawn up by the committee on that school.

I am positive that something should be done toward improving the ventilation of most of our buildings, and the banishment of "wood stoves." The frequent languor and torpor of many rooms are directly attributable to vitiated air, either the means of ventilating being inadequate, or the teachers careless, or both. In the good time coming I trust that all our buildings will have the fresh air and genial warmth of the Arlington St. building.

The janitors generally take pride in their buildings and spare no effort in having them properly cared for.

TEACHERS.

As usual several changes have occurred in the corps of teachers. After deliberation upon the condition of affairs in the High School at the opening of the fall term, your Board concluded that another teacher was necessary, and Mr. S. C. Bartlett, Jr., was elected sub-master. He immediately entered upon his duties with enthusiasm. The other teachers were relieved from

excessive pressure. I believe that the end of the year will show that the enlarged usefulness of the school fully warrants your action.

In October Miss A. M. Kittredge, Grade VII, Spring St. School, was granted leave of absence for the remainder of the year, her place being filled by Miss S. A. Speare, substitute. Miss Osborne resigned her position in Grade VI and Miss M. A. O'Neil, after a year's absence for study, was assigned to that position.

In July Mr. O. S. Williams resigned the superintendency of your schools to accept a more remunerative position at Dedham, Mass. The principal of Mt. Pleasant School being elected to fill the vacancy, Mr. J. H. Fassett of Nashua, Dartmouth '90, was elected principal of that school. Miss A. C. Taggart was appointed principal's assistant, a change for which there was pressing demand. Miss Butland of Grade V was put in charge of Grade VIII, and Misses Clough and George were assigned to the two divisions of Grade V. Miss Dodge's place in Grade I, vacant by resignation, was filled by Miss Lizzie M. McClure, Miss Emerson from Suburban I taking the other division of the grade.

Miss Armes was made principal of the Arlington St. School on its completion and Misses Carlton of Suburban 7, Morgan of Edgeville, Reilly of Belvidere, and Mrs. Gould were assigned to Grades VI, II and III, I, and IV and V, respectively. Another room was opened in the fall, Grades IV and V, which were in charge of one teacher, were separated. Miss Brown was put over Grade IV and her place at suburban 2 filled by Miss Marcella Shea, substitute.

At the Main St. School Miss Morrison was made principal, vice Miss Sullivan, resigned. On account of numbers a division became necessary in Grade IV and Miss Gorman, substitute, was assigned to one division, Miss Chamberlin, substitute, taking part of Grade I. Miss Spalding is acting as substitute in Grade II for Miss Farley, who is temporarily absent. A division was made of the lower room at the Belvidere, Miss Burns, substi-

tute, being assigned to duty there. Miss Morrill takes Miss Howe's place at the Harbor, Grades II and III. Miss Goodrich from Suburban 6 takes Grade I at Mulberry St. School, vacant by transfer of Miss Farley to Main St. School. Misses Wheeler, Wilson, Bodwell and Locke have been assigned to Suburban Schools 1, 3, 6 and 7 respectively. Mr. E. W. Pearson was elected Director of Music, vice Mr. G. E. Crafts, resigned to accept a better position.

I believe these are all the changes. It seems easy to name them over, but much tact, discrimination and wisdom are required in properly assigning teachers. At this point the Committee on Textbooks and Teachers is confronted with the problem as to where it may find suitable teachers for vacancies. Of course the substitute list is studied. A majority of the substitutes are practically untrained. Many have a slight experience in evening schools, the conditions of which are totally dissimilar to those of the regular schools. Ordinary calls for substitutes are supplied from this number. The result is generally unsatisfactory. While a training school for teachers is our need, I would suggest what seems to be a feasible and inexpensive expedient. Substitutes, having passed the required examination, could be allowed or required to spend a few weeks in each grade, studying the course of instruction and methods, becoming acquainted with details, learning somewhat of the art of teaching. Occasionally they should meet the superintendent and be instructed in various matters pertaining to the schools. They should also attend the regular meeting of the teachers. No compensation in money should be given these substitutes except pay for actual work in place of an absent teacher in accordance with the regulation. Some test of fitness should be applied and from these our regular and substitute corps could be recruited.

If a small fund, one hundred dollars or even less, was available each year, to be expended by the superintendent in engaging experts in educational matters to talk upon their specialties, much good would result.

Meetings of teachers, addressed by superintendent and others,

have been held. Particular topics have been discussed and the design is to make these meetings stimulating and helpful.

The teachers generally give evidence of much intelligence, enthusiasm and energy. They are ready, even eager, for progress. They have formed a teachers' club for professional and literary reading. They study works on pedagogical subjects and read educational magazines and papers. They are interested in what pertains to culture and refinement. The movement is forward.

In no calling is the tendency stronger than in teaching to become narrow and mechanical, to fall into lifeless routine, to be encumbered by detail and useless rubbish. Thinking teachers adapted to present conditions are everywhere in demand. More than ever narrowness, sarcasm, fault-finding, sourness, debasing espionage, the unrighteous struggle for "averages," are disappearing, and are superseded by "common-sense," cheerfulness, kindness, sympathy and the true educational spirit. Methods are rational, not traditional. The real purpose of schools, to *educate*, to train, to develop power, is being realized more and more. One of my chief desires is to help in some measure, if I can, the teachers of Nashua to attain unto the great object of their noble calling.

PUPILS.

It is easy to say that school children have degenerated since "the good old times." It is possible that I may be blinded by prejudice but I am convinced that so far as he is related to the school, the average pupil is better than formerly. Corporal punishments are being reduced to their rightful place. Fewer street quarrels are seen. The excellent tone of most of our schoolrooms is gratifying. The general politeness of children on the streets has been remarked. Honor, self-reliance, self-respect, courtesy, are held unwaveringly before pupils as standards about which to rally.

I find too many pupils over age in the primary grades. Some plan should be devised by your Board to obviate this.

Although the method of promoting pupils has been modified recently, it is still far from satisfactory. Written tests as usually given are of little educational value and fail in their real purpose almost invariably. It is seldom that "tests" for promotion test anything but the memory. Some members of the Board of Education have interested themselves in this matter and I trust the teacher may yet have an opportunity to do broad, true teaching unhindered, and the pupil to cultivate his powers of mind undisturbed by thoughts of "tests." Work should be tested all along, not for promotion marks, but for the child's sake. Let written work be a regular part of our scheme. Let every study be "counted." Drawing, writing, music, reading, are a part of the course, but slighted by some teachers and some pupils, I verily believe, because they are not marked, hence the unsatisfactory results obtained. I would ask that the Board of Education require that *all* studies be reckoned in making estimates and that some plan of promotion, doing away with so much useless work and fret, be adopted.

The simplest forms of term reports and record books known to me are now used. If there are any simpler, we should be pleased to learn of them.

A mixed grade composed of those pupils not regularly promoted, under a particularly strong teacher, might remove many of our difficulties. Individual work could be done to better advantage and pupils saved from serious loss of time.

The notion that no pupil should be promoted or degraded except at the end of the year is wholly wrong. The schools are for the pupil, not the pupils for the schools. Our buildings, textbooks, supplies, teachers, are all furnished for the sole purpose of developing and training children. The teachers must remember when harassed and perplexed by "difficult cases" that these are the ones requiring wisdom, skill and patience, the very ones needing fostering care, the ones pleading for sympathy and help. Their school life is short. Let them not be detained by mere whim or technicality.

I am surprised to find how little live interest parents take

in the schools. Most of the recorded visits are by teachers and friends, not parents. Parents also misjudge the schools, knowing only the distorted and exaggerated account of the children. I have seriously considered the advisability of a public meeting of the parents for the purpose of clearly defining the object and methods of the public schools.

Few complaints have come to this office and most, if not all, of these would have been unheard, if the parents had gone directly to the teacher. A free consultation of parents and teachers would remove many grounds of complaint and ill-feeling.

Without defining discipline, I will state that the discipline of the schools generally is good. Cases of corporal punishment, always reported in detail at this office, are becoming rare, while the standard is not falling. It seems almost invariably to be the case that a teacher controls her pupils as long as she controls herself.

Truancy is not prevalent to any great extent. Our Truant Officer is highly efficient and conducts the affairs of his office satisfactorily. It would be well if the co-operation of the day force of police could be secured in returning to school children of school age found on the streets without right during school hours. The Truant Officer cannot be everywhere.

Certificates of vaccination should be required and sent on with the pupils. Regular forms of notification in case of contagious disease should be employed.

Some method of admitting children during term time should be adopted. First year children especially should be limited to particular times of entrance.

The usual tables at the end of this report call for no special comment. Great care, however, should be taken in drawing conclusions from the statistics, as figures, misrepresented, convey anything but truth.

HIGH SCHOOL.

The work of the High school is excellent. Better facilities should be granted for physical laboratory work. One daily ses-

sion, I am sure, would enlarge the opportunities of this school. By the present arrangement, there is considerable "lost motion." The conditions here are not different from those in other places.

EVENING SCHOOL.

It gives pleasure to be able to say that there is great improvement in our evening schools. Whether we believe in schools like these, conducted as these are, or not, our duty is clear to make them the best possible. Discipline in many rooms compares favorably with that of our good day schools. Many teachers are trying really to educate their pupils. Some are teaching them the duties of citizenship, explaining the various departments and principles of our government. Many cases, comparatively, of corporal punishment are reported, but it must be remembered that any punishment, however slight, is reported. No cruel or abusive treatment is permitted in any of our schools.

SUBURBAN SCHOOLS.

I have seen some excellent work in some of these schools, and believe that, while they labor under some disadvantages, pupils here do have the great advantage of considerable individual attention on the part of the teacher. Every effort is making to improve these schools.

MUSIC.

Enthusiasm seems to be the word in connection with this department. Teachers and pupils are putting added energy to the work and are heartily trying to carry out the suggestions given. The work is more definite, educational and clear than it seems to have been. The present Director is doing good work in a careful, intelligent manner. The end of the year will show good results. Mr. George E. Crafts, who resigned as Director in the summer, is doing excellent work, we learn, at Pueblo,

Col., at a much higher salary than is paid here. A report on this subject will be found at the end of this report.

DRAWING

The drawing in the schools is not satisfactory. The results for so many years of study are inadequate. Attention is being directed to this department and it is hoped that improvement and progress will follow. A later course will probably be used as books. This "Complete Course" is exactly the same system now in use but to it are added the fruits of several years' experience.

I would recommend that the Board adopt the plan of "Circuit Instruction and Supervision," by which on payment of ten or twenty dollars a month, a skilled instructor spends from two to four days in the schools and with the teachers. These visits are devoted to

- a. Meetings with teachers in a body and by grades.
- b. Visits to the teachers in their class-rooms.

The teachers' meetings will be utilized for—

1. Laying out the following month's lessons in detail.
2. Discussing special points of interest or difficulty.
3. Outlining general methods of work.
4. Indicating the relation of the drawing to other school studies.

The class-room visits will be devoted to—

1. Giving representative lessons to pupils in the presence of the regular teachers.
2. Examining and criticising work done at other times.
3. Advising in regard to special difficulties.

ELOCUTION AND PHYSICAL TRAINING.

Work in this department is continued. The Swedish exercises are largely used. Teachers devote a few minutes each day to these exercises. Special and regular teachers are doing hard, conscientious work, still I must say that I think we ought to get better reading than we do in the grammar grades. This is not

adverse criticism on the teachers but shows that we need to give attention to this matter.

COURSE OF STUDY.

The course of study for grades below the High School has been wholly remodeled. It is intended to help, not to hinder; to guide, not to oppress; to broaden, not to narrow. Undoubtedly it will require changes and modifications. A new system of writing, new histories, new geographies, have been introduced.

Special stress is laid on nature study. A definite plan will be arranged, it is hoped, for this work by the teachers in co-operation with the superintendent.

A systematic course of reading besides the regular requirements of the adopted text book has been introduced. The Board of Education wisely and generously furnished material to carry into effect this most important change. None of the ill-effects feared have followed, and even now improvement and good are noted after a month's use. Much of education must be self-education. Having taught a child to read, we are in duty bound to teach how and what to read. Considerable attention is given to sight and silent reading. Besides trying to get a clear understanding of the meaning of the term "reading," we are endeavoring to apply to genuine literature the result of study and the best methods. A close study of the course of instruction will show what we are trying to do in the several branches.

In all our school affairs we are trying to build, rather than pull down. It is not the aim to criticise harshly or unkindly, but to assist. All are working together with one object in view and I am more than pleased to note and praise the concord and harmony among those engaged among the schools of the city.

The Nashua schools are attempting to educate the whole pupil. Character building is the aim of the teachers, and all the qualities of noble manhood are inculcated. Quietly the work is done. Unseen are the results for many years. What Nashua

owes to her teachers she can never pay. The world is always in debt to her highest workers. For the good results already obtained and the promising outlook, the people are indebted to the strong support of the Board of Education and the loyal work of the teachers. Respectfully submitted,

FRED GOWING,
Superintendent.

REPORT OF THE DIRECTOR OF MUSIC.

NASHUA, N. H., Jan. 27th, 1891.

MR. FRED GOWING, Supt. Schools,

Dear Sir:—Your Director of Music began his labors with the opening of the fall term, 1890.

On first visiting the several school buildings, many rooms were found double-charged with classes at the music hour.

In one room with a seating capacity of about fifty, seventy-five children were crowded, the incoming pupils from the adjoining room being huddled upon the long step beneath the blackboard, and insecurely seated upon blocks of wood.

Into others, the seating capacities of which were already over-taxed in accommodating their own pupils, settees were brought at this hour upon which the incoming pupils were promiscuously assembled.

The following classes were, or would necessarily be, thus united under the then existing arrangement followed by the Director in dividing his time among the several schools.

MOUNT PLEASANT.

9th and 8th grades, 41 pupils.

5th A and 5th B grades, 61 pupils.

1st A and 1st B “ 57 “

SPRING STREET.

9th and 8th grades, 91 pupils.

7th A and 7th B grades, 79 pupils.

6th A and 6th B “ 83 “

MAIN STREET.

5th A and 5th B grades, 47 pupils.
 4th A and 4th B " 60 "

PALM STREET.

1st A and 1st B grades, 78 pupils.

BELVIDERE.

1st and 2nd grades, 55 pupils.

O'DONNELL.

1st A and 1st B grades, 57 pupils.

This arrangement was attended with much noise, confusion, and waste of time; endangered the health of the pupils, and militated against the discipline of the school.

It was therefore recommended to your committee that each class receive its instruction in its own room, with each pupil comfortably seated at his or her own desk.

It was also recommended that each class in any one grade receive an equal portion of the Director's time, and that his time be divided among the several schools as follows:—

Grammar Grades,	30	minutes,
Intermediate "	20	"
Primary "	20	"
Surburban Schools,	30	minutes.

As the only musical instruction received by the pupils of the high school is that given by the Director at his periodical visitation to the four classes collectively in High School Hall, it was recommended that his appointment there be extended to sixty minutes.

Upon these recommendations, the following appointments in the several schools were made, taking effect on Monday, September twenty-ninth of said term.

First Day—MT. PLEASANT.

A. M.		P. M.	
Hour.	Grade.	Hour.	Grade.
9.10 to 9.30	—5th B.	2.00 to 2.20	—2d.
9.30 to 10.00	—9th and 8th.*	2.20 to 2.40	—3d.
10.00 to 10.30	—6th.	2.40 to 3.00	—4th.

Recess.

Recess.

10.50 to 11.10	—1st A.	3.15 to 3.35	—5th A.
11.50 to 11.30	—1st B.		
11.30 to 12.00	—7th.		

Second Day—ARLINGTON ST. AND HARBOR.

A. M., Arlington St.		P. M., Harbor.	
Hour.	Grade.	Hour.	Grade.
9.00 to 9.30	—7th.	2.00 to 2.20	—5th.
9.30 to 10.00	—6th.	2.20 to 2.40	—4th.
10.00 to 10.20	—5th.	2.40 to 3.00	—3d and 2d.*

Recess.

Recess.

10.45 to 11.05	—4th.	3.15 to 3.35	—1st.
11.05 to 11.25	—3d and 2d.†		
11.25 to 11.45	—1st.		

Third Day—SPRING STREET

A. M.		P. M.	
Hour.	Grade.	Hour.	Grade.
9.00 to 9.30	—9th.	2.00 to 2.30	—7th B.
9.30 to 10.00	—8th.	2.30 to 3.00	—6th A.
10.00 to 10.30	—7th A.	3.00 to 4.00	—High school.

Recess.

11.00 to 11.30—6th B.

* As these classes were both small, and doing the same work, it was thought better to allow them to remain together.

† See note page 5.

Fourth Day—MAIN ST. AND PALM ST.

A. M., Main St.

Hour.	Grade.
9.00 to 9.20	—5th A.
9.20 to 9.40	—5th B.
9.40 to 10.00	—4th A.
10.00 to 10.20	—4th B.

Recess.

10.50 to 11.10—3d.

11.10 to 11.30—2d.

11.30 to 11.50—1st A.

P. M., Palm and Main St.

Hour.	Grade.
2.00 to 2.20	—1st A.
2.20 to 2.40	—1st B.
2.40 to 3.00	—3d and 2d*
	Main St.

3.15 to 3.35—1st B.

Fifth Day—O'DONNELL, BELVIDERE AND MULBERRY STS.

A. M., O'Donnell.

Hour.	Grade.
9.00 to 9.20	—1st A.
9.20 to 9.40	—1st B.
9.40 to 10.00	—3d and 2d.*

Belvidere.

10.15 to 10.35—1st.

Recess.

10.55 to 11.15—2d.

11.15 to 11.35—4th and 3d.*

P. M., Mulberry St.

Hour.	Grade.
2.00 to 2.20	—1st.
2.20 to 2.40	—3rd and 2d*

Sixth Day—EDGEVILLE AND SUBURBAN SCHOOLS.

First Sixth Day.

Edgeville and Nos. 1, 2, and 7.

Second Sixth Day.

Edgeville and Nos. 3, 4, 5 and 6.

It will be seen from the table that the appointments are at the same hour of the day with any one class, but one school day later each week.

It is believed that the result has fully justified the change.

*These two grades unfortunately form one class and cannot therefore be separated.

It was found that the adopted system of instruction was "The National Music Course," the principal authors of which are Luther Whiting Mason, Julius Eichberg and J. B. Sharland.

Of the authors of this system, it may not be inopportune to say, that Dr. Mason was fifteen years instructor in music in the schools of Boston, and lately director of music for the empire of Japan.

"Dr. Eichberg has had twenty years' experience in personal charge of the music of all the high schools of Boston, is director of the Boston Conservatory of Music, and eminent as a composer and a player.

Dr. Sharland, besides an equally long experience in the Boston schools, was for many years associated with Mr. Theodore Thomas as conductor of his choruses; and until recently was in charge of the music in all the Boston high schools."

"If the success and reputation of authors, the critical commendation of the highest authorities, wide introduction, and long continued and satisfactory use, can establish the excellence and practical value of a series of books, The National Music Course may fairly stand upon its record. Embodying methods analogous to those most approved for the teaching of other school branches, and tested point by point in the class-room, these books and charts have been found to contain unusual elements of merit and endurance."

The publishers of this system suggest three progressive courses of study for the charts and readers of the series.

"*First.* A Full Course for the Strictly Graded Schools of the larger cities.

"*Second.* An Abridged Course for the smaller cities and the larger towns.

"*Third.* A Course for the Ungraded Schools of the country districts."

None of these are just adapted to the grading of our schools, the first being too full, the second too greatly abridged, and the third entirely unsuited to all save the suburban districts.

After communicating with the directors of music in several prominent cities using the same system, and a careful compari-

son of their courses with those suggested by the publishers, and with our own, a revised course of study graded to meet the wants of our schools, and uniform with the others, was recommended as follows:—

FIRST GRADE.

Sight work from blackboard.

First Term, first four weeks—"The Scale," ascending and descending with scale names and syllables, illustrated by "Music Ladder."

Second four weeks—The same transferred to the "Music Stairs."

Third four weeks—The same transferred to the staff.

Rote work for the term. (New First Music Reader.)

"I've a Little Dog at Home," page 56.

"Purity," page 118.

"The Boy and the Bird," page 94.

Other songs *by rote* at the discretion of the Director.

Second and Third Terms.

Sight work—Sounds, long and short; notes; measures; bars; rests, long and short; G Clef; pitch; the repeat; the slur; names of notes; learning to beat time; singing and beating time; middle, upper and lower scale.

Rote work. (New First Music Reader.)

"School is begun," page 106.

"The Merry Lad," page 34.

"Rest of the Flowers," page 33.

Other songs *by rote* at the discretion of the Director.

Teacher to report the number of pupils who can sing the scale, and those who cannot, on being transferred to the next higher class.

SECOND GRADE.

Sight work.

New Second Series Charts, first twenty pages.

Rote work. (New First Music Reader.)

"The Evening Star," page 95.

"The Rising Sun," page 30.

"Children go, to and fro," page 96.

"The Bird's Nest," page 32.

"The Farmer," page 110.

"The Postman," page 55.

Other songs *by rote* at the discretion of the Director.

At the end of the second year rote work discontinued.

THIRD GRADE.

New Second Music Reader, first thirty-seven pages.

FOURTH GRADE.

New Second Music Reader, pages 38-100.

Selections from Parts 3-4 at discretion of Director.

FIFTH GRADE.

New Third Music Reader, first thirty-four pages.

SIXTH GRADE.

New Third Music Reader, pp. 34-74.

Selections from Parts 4-5 at discretion of Director.

SEVENTH GRADE.

The Third Music Reader, Book II.

EIGHTH GRADE.

New Fourth Music Reader.—The easier selections.

NINTH GRADE.

New Fourth Music Reader.—The more difficult selections.

HIGH SCHOOL.

Supplementary work, consisting of three and four part songs, anthems, choruses, etc.

IN GENERAL.

Daily vocal exercises, solfeggios, etc., at the discretion of the Director.

It is believed that at the end of the year the first, second and third grades will be in their proper positions in the course.

While not attainable for the other grades this year, position in the course will be easily reached in succeeding years.

At the close of the fall term, written tests in the Grammar and Intermediate grades, and oral tests in the Primary grades were given under Rule I. (Rules adopted by the Board of Education, governing the Director of Music.)

From these tests deductions were made and tabulated, showing the position of each pupil in the several classes, and the relative position of the several classes in the schools.

It is believed that these deductions have been most useful to all concerned. To the pupils in awakening a desire for a more thorough knowledge of the science; to the teachers in discovering the individual deficiencies of the several pupils, and to the Director in enabling him the more directly to address his attention to the special needs of the several classes.

Five applications to be excused from vocal work, have been received under Rule IV. It is hoped that this number will not be largely increased.

One special meeting of teachers has been held under Rule II, and others arranged for.

At the opening of the winter term the work was resumed on the part of both teachers and pupils, with a degree of genuine

enthusiasm that has already resulted in a marked and steady advancement.

Four things urged by Mr. Mason, the author, as necessary to insure success in this line of work, are,—

- “ 1. The special attention of the Superintendent.
2. The children should be comfortably seated at separate desks.
3. A liberal and attentive music committee.
4. A portion of time should be set apart for daily instruction by the regular teachers, and every teacher should cheerfully co-operate in the work.”

That our service has the first of these, we are daily reminded by the kindly offices and helpful suggestions of our Superintendent, and by the lively interest manifested by him in the work.

Possessed of a knowledge of the science, and experience in its application in the class room, a point well taken is keenly appreciated, and a weakness quickly discerned.

The second is obtained under the new table of appointments.

The third is evidenced in the equipment of the several classes with all things needful for the service.

The fourth is almost abreast of the others. The committee have provided the time, and with but few exceptions, the teachers co-operate most heartily in the work. Through their efforts most commendable results are at hand, and with their kind attention and ready assistance, our schools will attain at an early day a most gratifying degree of excellence in this branch of public instruction.

Respectfully submitted,

E. W. PEARSON,

Director of Music.

Nashua High School,

CLASS OF 1890.

GRADUATING EXERCISES,

HIGH SCHOOL HALL,

JUNE 27th, 9.30 O'CLOCK.

PROGRAMME.

PART I.

MARCH,—“The Class.”

INVOCATION.

SALUTATORY.

Marietta A. Pease.

ESSAY,—“Curiosity as an Element of Character.”

Henrietta F. Pease.

RECITATION,—“Herve Riel,” Browning.

Alice L. Sargent.

ESSAY,—“The Dead Planet.”

Bertha H. Hunter.

MUSIC, DUET,—“Ring on, Sweet Angelus,” Gounod.

Gertrude A. Hooper, Robert S. Watson.

ORATION,—“Ballet Reform.”

William H. Kennedy.

ESSAY,—“Authors’ Wives.”

Ida M. Putnam.

RECITATION,—“Little Elfin’s Plea,” Mary L. Wright.

Lila M. Colburn.

ESSAY,—“The Homeric Greeks.”

Clara L. Blake.

ESSAY,—“Home Life of Tennyson.”

ESSAY,—“Mohammed.”

May V. Perham.

MUSIC, SOLO,—“The Green Trees Whispered Low and Mild,” M. W. Balfe.

Gertrude A. Hooper.

PART II.

CLASS ORATION,—“No Victory, No Crown ”
Robert S. Wason.

CLASS CHRONICLES.
M. Abbie Smith.

CLASS PROPHECIES.
M. Hermione Truell.

VALEDICTORY,—Theme: “Ideals.”
Gertrude A. Hooper

CLASS ODE,—Words by Bertha H. Hunter.
Music by Gertrude A. Hooper.

Our days at this school are over ;
New duties we now undertake ;
Oh, these may we rightly discover,
Nor ever neglect or forsake.

These years have we spent in endeavor,
Our barks frail and small to prepare
For the shock of the sure-coming tempests,
That shall break round us everywhere.

Now ready to launch our vessels
Upon the great sea of this life,
All pure seems the blue arching round us,
No mists dim our hopes all so bright.

Tho' gales rudely threaten our safety,
Our hearts ehall be proof against fear,
If with hand firmly grasping the rudder,
To the haven we zealously steer.

Let Onward our watchword be ever,
To the vict'ry of Truth and of Light ;
And then on the brow of each victor
Will a crown cast its halo bright.

PRESENTATION OF DIPLOMAS by President of Board of Education
AWARDING NOYES' PRIZE MEDALS by the Superintendent.

REPORT OF EVENING DRAWING SCHOOL.

NASHUA, N. H. Jan. 25.

Mr. Fred Gowing, Supt. of Schools.

DEAR SIR:—The evening drawing school opened with 65 members of whom 30 were in the advanced class and the remainder in the beginners' class.

The average attendance has been 38.

Of the 65 that entered 20 have dropped out, leaving, at present, a class of 45 members, nearly all of whom show great interest, and a large proportion are doing excellent work.

	Male.	Female.	Total.
Pupils,	41	4	45

While the class is not so large as we should like, I think at the close of the term we shall be able to show a fair amount of work accomplished.

Yours truly,

GEO. C. SHATTUCK, Prin.

COURSE OF STUDY.

ADOPTED DEC., 1890.

Instructions, methods, explanations and other matter pertaining to schools given by circular or at teacher's meetings.

Moral Instruction. The duty of every teacher is clearly defined by the following extract from the laws of the Commonwealth of Massachusetts.

“It shall be the duty of all instructors of youth to exert their best endeavors to impress on the minds of children and youth, committed to their care and instruction, the principles of piety and justice, and a sacred regard to truth; love of their country, humanity, and universal benevolence; sobriety, industry, and frugality; chastity, moderation, and temperance; and those other virtues which are the ornament of human society; and the basis upon which a republican constitution is founded; and it shall be the duty of such instructors to endeavor to lead their pupils, as their ages and capacities will admit, into a clear understanding of the tendency of the above-mentioned virtues, to preserve and perfect a republican constitution, and secure the blessings of liberty, as well as to promote their future happiness, and also to point out to them the evil tendency of the opposite vices.”

LANGUAGE—GRADE I.

(Time 12 or 15 minutes *maximum*, for continuous exercise. Classes divided according to ability and attainments into groups of ten or about that number.)

(For busy work copying words, etc.)

In first year begin teaching analysis of words for letter sounds.

The object in this grade is to get pupils to talk correctly. Pupils make correct, clear sentences. The method should be the word or sentence method.

I. The teacher should place some suggestive object before the class, and lead pupils to make statements about it. To avoid *loose talking* on part of children, have pupils tell *one thing* about the object. The best sentences may be put on the board for a reading lesson.

II. Pupils should next ask questions about the object, thus learning the interrogative form.

III. Place before pupils some comparatively large pictures, and have statements and questions made as in case of *object*.

LANGUAGE—GRADE I.

IV. Tell interesting stories; examine children so as to require complete sentences in answer.

V. Reproduce substance of reading lessons in response to questions by teacher. (Silent reading.)

N. B.—There should be no telling of stories until children can make sentences well. A few of the best may be allowed to do this from the beginning.

Phonetic spelling; Spelling ordinary; Alphabetic names of letters.

Particular topics to be brought up as Language Work.

1. Use of *a* or *an*. Object presented, name given, *a* or *an* used before names. Objects should be abundant. Children pass about and point to various objects, use *a* or *an* as required. This work should be rapid.

2. Use of nouns to denote more than one object. (Teachers should use terms *one* and *more than one*.) (Clear enunciation always.)

LANGUAGE—GRADE I.

3. Use of *correct form* of *verb*,* with singular and plural subjects.

Objects should be used as before, requiring something to be told or asked about *one*, then about *more than one*. Encourage, as always, freedom in talk.

E. G. Objects: apples. The apple is red—sweet. Apples *are* red, etc. Then work up—apple has—apples *have*, etc. Use of *they*. When these points are well secured, bring in there *is*—there *are*.

4. Use of *this*, *these*—that, those.

5. Use of *adjectives*. To facilitate expression concerning qualities. Ask reasons for some answers. The coat is old. Why? The hat is old, because it is worn, faded, torn. (Be cautious in regard to use of *and*.)

6. Use of *adverbs*. Limited and *very simple*. The obvious uses.

LANGUAGE—GRADE I.

7. Use of *pronouns* as *subjects*. Especially to teach pupils to avoid *him* and *me* are going, and similar expressions. (Much tact and patience are required in this. Do not put much time on *who*, *whom*.)

Drill on *correct* forms in which errors are often made, but never put an *incorrect* form before young pupils.

Written work should be simple. Copying easy sentences. Exercises should be without much ado—"every-day."

GENERAL WORK.

Oral descriptions of common things seen on the street, at home, at school.

Color—*simply*.

* Terms not to be used with children.

Write own name and that of school. Days of the week. **EASY** dictation. *Guessing* from *description* the names, etc., of objects, (fruits, flowers, animals, etc.)

Observation lessons. By testing pupils to observe qualities of objects.

Tendency is for teachers to anticipate the pupil in telling, "The ball is round, *isn't it?*" The whole end is thus lost. The pupil *must* do the work. Quality of work, not quantity, is the desideratum.

LESSONS ON PROPER LIVING.

See "Talks on Hygiene." Emphasize *cleanliness*.

The use in sentences and spelling of *list of words* arranged for this grade.

Diacritical marks, (—, etc.)

LANGUAGE—GRADE II.

Continue story-telling, picture and action lessons, guessing from descriptions, etc., as in Grade I, but increase in difficulty. Best sentences to be put on slates. Result should be an orderly description of object. All write same sentences and receive class instruction in capitals and punctuation. (Beginning sentences, proper names, period, question mark.)

Greater freedom in descriptions allowed. Gems of poetry and prose, maxims, etc., continued. Teach, from objects, to combine two simple statements in one. Have pupils:

Fill in blanks in elliptical sentences.

Write names of thing seen.

Weave several given words into a story.

Complete stories from hints.

OBSERVATION LESSONS.

Color and size lessons. Plant observed. (Pupils to do the observing and telling. Object being to teach *use* of eyes and

exact use of thing seen. Beginning true science study.)
Human body lessons continued.

GENERAL WORK.

Nominative forms of personal pronouns after *is* and *was*.
Objective forms after *verbs* and prepositions.

Review Grade I in *this* and *that*. Introduce *this* and *that* kind, sort, (to avoid *these kind*, etc.)

Complete such sentences as *one of those boys*, *each of those books*, and so on.

Use of irregular verbs. This is important. (Break, do, bite, eat, rise, steal, go, buy, see, speak.)

Diacritical marks.

Some sight reading and examination upon it for reproduction.

WRITTEN WORK.

Copying of sentences. Simple dictation of known words in new combinations.—Name, school, residence. Write stories from hints and words suggested. Teacher write questions about objects; pupils write answers. List of words.

Use in dictation (.) (!) (?) Mr., Mrs., use of Miss. (Always remember this work is suggestive. Teacher is to use other useful matter. Be *simple*.)

LANGUAGE—GRADE III.

Oral. To train the memory and promote the expression of thought.

Reproduce orally the substance of reading lessons. Reproduce stories after an oral exercise in which the pupils make statements in response to teacher's questions.

Study of pictures as in previous grades. Pupil connect a story with the picture under direction of teacher. (Imagination.) Guessing from descriptions

Irregular verbs: brat, bind, build, burst, feel, grind, hit, pay, tell, swim, fall.

Teach vowels and consonants, (distinguished), syllable and accented syllable.

Use of adjective after verbs *look, seem, appear, taste, smell.*

(She looks *beautiful*, not *beautifully*). (Banish *nicely*, for *well*.)

Use of different forms of *who* in questions. Use of *who, which* and *that*.

Teach pupils *doesn't, isn't, strange* (for *funny*) as (for *like*).

Simple undivided quotations. Correct use of *there, their; to, two; saw, seen; have seen*.

All oral work to be followed by written work.

Dictation of simple stories, using (') in possessives and contracted forms, (-) in dividing word at end of line, (,) in a series of words and following a name denoting an address. List of words.

Letters, simple but correct in form. Maxims, prose and poetry gems copied and learned. (Dictate above.)

Abbrev.: P. M., A. M., ct., cts., doz., Rev., Gen., Capt., (use in work) months.

OBSERVATION LESSONS.

Qualities, color and size (review).

Lessons preparatory to geography on *plants, animals* and *people*.

Lessons on human body and right living. (See "In the Schoolroom".)

(The above is suggestive only. Be simple.)

LANGUAGE—GRADE IV.

Review of previous grades to be woven in. Work to be similar but enlarged.

Oral reproduction of the substance of reading, geography and observation lessons, also of stories read and told by teacher.

Studies from pictures. Guessing from descriptions. Stories from hints and lists of words. Filling in elliptical sentences. Stories and letters describing journeys, etc. Letter-writing, forms of heading, salutations, conclusion and addresses.

(At end of fourth year, children should be able to write a neat, clear letter in proper form.)

Dictation exercises for spelling, form, punctuation. Quotations (undivided). Poems, gems and maxims.

Letters, vowels, consonants, diphthongs. Syllabication. Diacritical marks. Use of subject and predicate (not defined) of simple sentences not much modified.

Plur. of *teaspoonful*, etc. Use of *in*, *into*, *but that*, (not *but what*) *expect*, *suspect*. *Somebody's else* (not *somebody else's*). Position of *only* in sentences. Abbrev.: names of states and points of compass. U. S., U. S. A., A. D., Mt., R. R., Dr., Etc., etc.

Observation and human body lessons continued. (Language work to be counted for promotion.)

LANGUAGE—GRADE V.

Continuation of preceding work; exercises to be more advanced. Reviews interwoven at all times.

Formation of plurals to be taught in connection with spelling. Divided quotations. Compound words. Roots, prefixes and suffixes.

Subject and predicate *taught*. Sentences, simple, declarative and interrogative. Nouns, adjectives, verbs.

(The beautiful sunshine cheers our hearts. Beautiful tells what kind of sunshine), and thus on. No set rules and definitions. Simple development.

Use of *dictionary*. Words like *lessen*, *lesson*, *attendants*, *attendance*. Use of *clever*, *between*, *among*, *shall*, *will*, *may*, *can*, *balance*, *remainder*, *any*, *at all*, *depot*, *station*. Abbrev.: Acct., Hon., Gov., Pres., Jr. or Jun., Sr. or Sen., Maj., Lieut., M. D., Messrs., Prof., Supt., U. S. N.

Story writing, paraphrasing and reproduction stories. Letter-writing, invitations, bills, receipts, answers to advertisements, orders for goods.

Observation and human body lessons.

LANGUAGE—GRADE VI.

Continuation and enlargement of all preceding work. Changes in forms of words (tooth, teeth; come, came) and object of change.

Homonyms and synonyms. Paragraphing. Classify simply sounds, letters and words (simple, compound, etc.)

Teach parts of speech—nouns, person, number, case. (Exclude nouns in apposition, absolute, independent, and such. Predicate noun, confined to forms after *to be*. Parsing confined to sentences analyzed. No rules for parsing.) Personal pronouns. (Decline, vary, use both terms). Correction, with reasons, of wrong use of pronouns. Adjectives. (Classify into limiting and qualifying. No classification of limiting adjectives). Comparison. Pred. adj, verbs, (regular, irregular, transitive, intransitive.) Objects. Prepositions.

Analysis of easy simple sentences. Use of dictionary. Distinctions in use of words. Common errors corrected. Business forms as in V. Receipts for goods or money.

Stories, letters, composition work as previously noted.

LANGUAGE—GRADE VII.

Continuation of previous work. (Difficulty to gradually increase. Reviews to be interwoven.) Oral and written reproductions of reading, history, geography, observation and human body lessons.

Paraphrasing simple poetry and prose. Conversation in preparation for geographical and historical letters. Preparation of "notes," from which letters and other composition matter are to be made. Letter writing and business forms.

Parts of speech. (Topical recitations may be used to advantage. In verbs omit subjunctive mood, the use of auxiliaries and all fine distinctions.)

Analysis and parsing. (First thing in analysis is to understand *meaning* of sentences. Easy sentences, to include complex and compound sentences of little difficulty. Clear distinction of word, phrase, clause, sentence, idea, thought, relation, etc.)

Special drill on dictionary work. (Discriminating pronunciation, use, etc.)

Observation and human body lessons.

Critical study of pieces in Reader :—

- (1) Water Bloom, p. 245.
- (2) A Genuine Little Lady, p. 146.
- (3) Woodman, Spare that Tree, p. 165.

LANGUAGE—GRADE VIII.

Review of necessary preceding work interwoven. (Each grade includes all preceding it. Reviews are constant, not spasmodic.)

Letter writing to include notes of invitation, acceptance, regret, application for places, recommendation, orders, business letters, telegrams.

(Paraphrasing, reproduction, preparation of "notes," and such work as before noted. A careful study of pictures etc., (to aid imagination.) Much attention to writing, connected thinking, orderly arrangement, vigorous, elegant expression, etc.)

Critical study of:— (Reader)

King Solomon and the Bees,	p. 264
Time,	p. 144
Abou Ben Adhem,	p. 361

Take up following Grammar, carefully and methodically :—
Analysis and parsing, clauses, noun, adjective and adverb, mood, tense, voice of verbs. Participles and infinitives. Conjugation. Auxiliaries. Conjunctions. Relative pronouns. Purpose of

inflection, etc. Nominative case independent, etc. Adverbs. Phrases.

Logical subject, predicate. Grammatical subject, predicate. Modifiers and their position. Kindred work.

LANGUAGE—GRADE IX.

Reviews interwoven. Work preceding to be enlarged and emphasized. Composition work of all kinds to be thoroughly worked over.

Careful study of poems, books, works of art, and interesting matter to be used as subjects for conversation and written work. (Conversation lessons, as such.)

Dictionary work. Discriminating study of constructions of more difficulty.

Critical study of:— (Reader.)

Mahmoud, the Image Breaker,	p. 214
The Dignity of Labor,	p. 370
The Chambered Nautilus,	p. 354

GRAMMAR.

Compound sentences, including uses of co-ordinate conjunctions.

Clauses (complex sentences), including use and inflection of the relative pronoun,—the two offices it performs and how it differs from personal pronoun,—subordinate conjunctions.

Study of the noun, including inflections and their purpose. Number, gender, possessive case.

Personal pronouns, inflections and their purpose. Person, gender, number, case. Declension. Substitute personal pronouns for nouns in sentences, to show their agreement in person, number and case, and also in gender when the noun is third person, singular number.

STUDY OF VERBS.

Two inflections, regular and irregular.

Purpose of inflection.

The form in *s*.

Auxiliaries. Use, etc.

Transitive and *intransitive*.

Mode.—(Not an inflection but a mode of expression.) Indicative. Potential. Subjunctive. Imperative.

Tense,—Indicated by inflection.

“ auxiliaries.

Voice.—Not an inflection. (How formed and why?)

Participles and *infinitives*.—Syntax (define).

Analysis.—Classifications as to form and use.

Learn rules of syntax as will be helpful in constructing sentences.

Punctuation and capitalization.—(Rules general).

Syntactical parsing.

WRITING.

Each lesson to be preceded by drill and movement exercises.

NORMAL REVIEW SYSTEM.

Grade I. Elementary exercises.

Grade II. Short Course. Book 1.

Grade III. Short Course. Book 2.

Grade IV. Short Course. Book 3.

Movement Course. Book 1.

Grade V. Short Course. Book 4.

Movement Course. Book 2.

Grade VI. Regular Course. Book 1.

Movement Course. Book 1.

Grade VII. Regular Course. Books 2 and 3.

Movement Course. Book 1.

Grade VIII. Regular Course. Books 4 and 5.

Movement Course Book 2.

Grade IX. Business Forms and general practice.
Movement Course. Book 2.

DRAWING.

Grades I and II. "Use of Models," used as a guide.

Grade III. Finish "Use of Models," and Book 1, Prang's Series.

Grade IV. Books 2 and 3.

Grade V. Books 4 and 5.

Grade VI. Books 6 and 7.

Grade VII. Book 8.

Grade VIII. Book 9.

Grade IX. Book 10.

READING.

Sight and silent reading, in all grades.

Grade I. From blackboard (script), Charts. Several Primers and first part of several First Readers. New Franklin First Reader.

Grade II. New Franklin Second Reader. Last half of several Primers and First Readers.

Grade III. Drill Book, Franklin Third Reader. First half several Second and Third Readers. Alice's Adventures in Wonderland. Seven Little Sisters.

Grade IV. Drill Book, Franklin Third Reader. Second half, and if more is needed, selections from first part of Modern Intermediate Reader. Story of a Short Life. Anderson's Fairy Tales. Æsop's Fables.

Grade V. Drill Book, Modern Intermediate Reader. Hawthorne's Wonder Book. Water Babies. Longfellow's Shorter Poems.

Grade VI. Drill Book, Franklin Fourth Reader, *1st half*. Robinson Crusoe. Black Beauty. Snow Bound.

Grade VII. Drill Book, Franklin Fourth Reader, *2nd half*. One written abstract of book read at home. Hawthorne's

True Stories. N. E. History. Courtship of Miles Standish. Franklin's Autobiography.

Grade VIII. Drill Book, Franklin Fifth Reader. Two abstracts of books read at home. Irving's Sketch Book. Sharp Eyes. Evangeline.

Grade IX. Drill Book, Franklin Fifth Reader. Three abstracts of books read at home. Ivanhoe. Birds and Bees. Sir Launfal, and others.

Physical exercises and vocal drill throughout.

Rhetorical, throughout the course.

SPELLING.

(Including definition and use.)

Grades I, II and III. Lists of words given and words from the reading.

Grade III. In addition selected words from Spelling Book, Part I, to lesson 39.

Grade IV. Spelling Book, Part I, to lesson 102.

Grade V. Finish Spelling Book, Part I.

Grade VI. Spelling Book, Part II, to lesson 67.

Grade VII. Spelling Book, Part II, to lesson 135.

Grade VIII. Spelling Book, Part II, to lesson 206.

Grade IX. Finish Spelling Book, Part II.

NOTE.—Omit unusual or too difficult words. Use words found in other studies as spelling lessons. Particularly drill on *common* words, and in higher grades work upon words found in current literature.

PHYSIOLOGY AND HYGIENE.—PRIMARY.

[Topics of first four years from those prepared by Dr. Dunton, of the Boston Normal School.]

FIRST YEAR.

Body as whole.

Correct bodily habits.

SECOND YEAR.

I.—*Parts of Body.* 1. Head, neck, body or trunk. 2. Arms, right, left. 3. Legs, right, left. 4. Limbs. 5. Position of body compared with that of common animals. 6. Arms, wings and forelegs.

II.—*Parts of the Head.* 1. Crown, back and sides. 2. Hair, combing and brushing. 3. Face, complexion and washing the face. 4. Ears, right and left.

III.—*Parts of the Face.* 1. Forehead, temples, cheeks, chin, lips. 2. Eyes, eyebrows, eyelashes, eyelids. 3. Nose, nostrils, bridge of nose. 4. Mouth, teeth, tongue; cleaning teeth.

IV.—*Neck.* 1. Throat and back of Neck. 2. Protection and cleanliness.

V.—*Parts of the Body.* 1. Back, chest and stomach. 2. Shoulders, sides, hips.

VI.—*Arms.* 1. Movements. 2. Joints, shoulders, elbows and wrists. 3. Upper arm, forearm, wrist.

VII.—*Hand.* 1. Back, palm, thumb and fingers. 2. Joints, fists, knuckles. 3. Forefinger, middle, ring and little fingers, thumb. 4. Motions, strength and use. 5. Nails and their uses. 6. Cleanliness: paring and biting.

VIII.—*Legs.* 1. Motions, proper walking, hip, knee and ankle joints. 2. Thigh, shin, calf, foot.

IX.—*Feet.* 1. Sole, instep, heel, ball, arch. 2. Tight and short shoes, cold and damp feet. 3. Cleanliness of feet; neat shoes and stockings.

THIRD YEAR.

X.—*Eye and Sight.* 1. Color of the eyes. 2. White of eye, iris, pupil. 3. Change in pupil for light. 4. Bony socket and eyeball. 5. Eyelids, lashes, brows, winking, and tears. 6. Too little and too much light; reading at twilight. 7. Holding work too near, looking cross-eyed, and cleanliness.

XI.—*Ear and Hearing.* 1. Sounds known by the ear; transmitted by the air and by solids, 2. Direction, pitch and quality of sounds. 3. Shape of the ear, internal ear, cleanliness of ear. 4. Care of ear; cold draughts, pulling and shouting into. 5. Listening attentively and eaves-dropping.

XII.—*Nose and Smell.* 1. Odors; pungent, aromatic, spicy, etc. 2. Use of smells, determining good food, pure air, etc. 3. Scent in animals compared with smell in man. 4. Colds, draughts, ventilation, cleanliness, etc.

XIII.—*Tongue and Taste.* 1. Tongue and Saliva. 2. Kinds of flavors; bitter, sweet, astringent, etc. 3. Chewing gum, tobacco, etc. 4. Hot and strong drinks. 5. Thirst and proper time to drink.

XIV.—*Touch.* 1. Use of fingers, and delicacy of touch. 2. Rough, smooth, etc.; cold, hot, etc.; shape, size, etc. 3. Cleanliness, blisters, callouses, etc.

FOURTH YEAR.

XV.—*Teeth.* 1. Enamel, crown, root. 2. Cutting teeth, eyeteeth and double teeth. 3. Two sets, shedding, number. 4. Cleansing, how and how often. Effects of hot drinks, candy, pickles, biting hard substances, etc.

XVI.—*Skeleton.* 1. Skull, spine, ribs, etc. 2. Structure of bones, hollow and light. 3. Kinds of joints, why joints move easily; danger from pulling.

XVII.—*Muscles.* 1. Appearance; lean meat. 2. Attachment to bones. 3. Action of muscles. 4. Exercise, proper kinds of play, work and rest.

XVIII.—*Skin.* 1. Elasticity, pores, perspiration. 2. Cold draughts, proper clothing. 3. Cleanliness, bathing, dandruff, etc.

XIX.—*Circulation.* 1. Where the blood is, uses of the blood and heart, and the pulse. 2. Arteries, veins. 3. Tight bands, tight clothes, warmth, exercise, wounds.

XX.—*Respiration.* 1. Pure and impure blood, windpipe and lungs, how to breathe. 2. Pure air and how to get it. 3.

Odors and dust, clean bodies and clothes, and out-of-door exercise.

XXI.—*Digestion*. 1. Use of teeth and saliva, eating slowly, drinking when eating. 2. Proper kinds of food and drink; tea, candy, pickles, etc. 3. Regular and late meals, chewing gum, etc.

FIFTH YEAR.

Digestion Anatomy, physiology, and hygiene of the digestive organs. Foods. Effect of Alcohol. Circulation. Anatomy of the organs. Physiology and hygiene.

SIXTH YEAR.

Review work of Grade 5. Respiration. Anatomy, physiology and hygiene. Respiration in aquatic animals. Dress. Ventilation. Disinfection. Nervous system. Stimulants and narcotics.

SEVENTH YEAR.

Review. Special study of the eye and the senses of hearing, smelling and tasting.

EIGHTH YEAR.

Review. The Skin. Bathing. Clothing. Bones and muscles. Exercise.

NINTH YEAR.

[Time, 60 minutes per week.]

Review of the whole subject with text book. Emergencies.

STIMULANTS AND NARCOTICS (ALL GRADES.)

Sources of information. Observations by the pupils and teacher Conversation. Reading.

What to teach. Teach pupils 1, to *know* what is *right* in the use and care of the body, and why; 2, to *know* what is *wrong* in the use and care of the body, and why; 3, to *feel the obligation* to do right; 4, to *chose* to do the *right* in using and caring for the body, mind and soul; 5, to be charitable and helpful.

Method. Teach pupils to know right and wrong,—1, by their personal observation of the effects of using stimulants and narcotics; 2, by telling them simple truths about the effects that cannot be observed by them; 3, by the reading of selected articles; 4, by conversations.

Teach pupils to feel the obligation and desire to do the right,—1, as a result of their knowledge of the use of stimulants and narcotics; 2, by earnestness and sincerity in the teaching.

Teach pupils to choose to abstain from the use of stimulants and narcotics—1, because they know and feel it to be right; 2, because they desire to be strong and upright men and women; 3, because of the earnest effort of the teacher to be a consistent example.

* GEOGRAPHY.

Grade III.—Home geography. School surroundings. (Boundary of premises, plans, thus leading to maps and globes.) Direction. Points of compass. Forms of land and water. Climate, Soils, Productions (plant and animal), Seasons (objectively taught).

Grade IV.—1. Interweave Grade III and take earth as a whole (simply), Geography of Nashua, New Hampshire, General Geography of North America. 2. United States (not each section minutely). 3. Rest of North America, South America.

Grade V.—1. Review of North and South America. 2. Europe, Asia. 3. Africa, Australia.

Grade VI.—1. United States and the rest of North America. 2. Special study of New England and New Hampshire. 3. South America, Great Britain.

Grade VII.—1. Europe, Asia. 2. Africa, Australia, Pacific Islands. 3. Review of New England and New Hampshire.

Grade VIII.—1. Mathematical and Physical Geography. 2. General review. 3. Ten most important countries.

UNITED STATES HISTORY.

VI.—Local history with the Geography.

Grade VII.—1. Prehistoric America, Indians. 2. Period of Discovery, of Settlement. 3. Development of the colonies, Colonial wars, Character of the colonists, Customs, etc. (Barnes, page 100).

Grade VIII.—1. Revolutionary war and the critical period (1783–89). 2. The various administrations to the Civil War, (1 Term to the Mexican War, 11 Term to Civil War).

Grade IX.—1. To present time. 2. Running review. 3. Civil Government, Town, County, State, Federal. (Macy.)

ARITHMETIC.

Interweave reviews in all grades.

Grade I. Numbers developed from 1 to 10. (First term without figures.) All processes to be developed. Coins from cent to dime. Pint, quart, bush. Roman numerals to X. (Wentworth and Reed and F. Cogswell as references.)

Grade II. Numbers to 50. Sign of addition, subtraction, multiplication and division. Coins continued. Pint, quart, gallon. Inch, foot; foot, yard. Dozen. Halves, quarters, thirds, sixths. Roman notation to XX. Counting to 100. Simple adding in columns, not beyond 100 for sum total.

Grade III. Adding, subtracting, multiplying and dividing numbers from 1 to 100, without and with figures. (No multiplication or division greater than 12 required.)

Writing and reading numbers to 1000.

Peck, bushel, ounce and pound.

Processes with numbers to 1000.

(Last term). (No multiplication or division greater than 12.)

Second, minutes, hour, day, week, year.

Roman notation to M. U. S. money.

Grade IV. Combinations of thousands and of thousands with smaller numbers. Results to 1,000,000.

In multiplication and division, products and dividends 100,000.
 Writing and reading numbers.
 Tenths, hundredths, thousandths.
 Writing and reading decimals to thousandths.
 Small fractions added and subtracted objectively.
 Principal weights and measures. U. S. Money.
 Grade V. Addition, subtraction, multiplication and division thoroughly reviewed.
 Common weights and measures. (Practical work.) Simple fractions to twelfths and thousandths. All processes, (largely oral.)
 Factors, measures, multiples taught orally, with simple numbers. (No set definitions or rules.)
 Grade VI. Common fractions and decimals (in addition to previous work), simultaneously.
 Factors and multiples. Percentage very simply.
 Units of Long, Square and Solid Measures, with their relations. Weights and Measures.
 Grade VII. Compound Numbers.
 Percentage (without the *time* element.)
 Commission, Insurance, Profit and Loss.
 Grade VIII. Percentage with element of time.
 (Method for interest, Franklin Arith., p. 213 and p. 215.)
 Compound Interest.
 Time and Bank Discount. Notes.
 Partial Payments and reviews and drills for speed and accuracy. Stocks and Bonds. Drafts.
 Grades IX. Ratio. Simple Proportion. Powers and roots.
 Square Root and its common applications.
 Cube Root (factoring) and its common applications.
 Mensuration of parallelogram, triangle, circle, of the prism, cylinder and sphere.

METRIC SYSTEM.

Topical reviews, principles and definitions with illustrative work.

Bookkeeping by single entry, (last term) and review of business forms.

Considerable time and attention are to be given, in *all* grades, to mental work. Mental work should precede written work, and should be of the same sort.

In all grades, besides the regular arithmetic lessons, a few minutes, the odd ones, should be devoted to adding columns of figures, quick work in the processes, etc.

VOCABULARY OF 225 WORDS.

Taught in 16 weeks by the Sentence Method, with script letters.

FIRST AND SECOND MONTHS.

OBJECT WORDS (taught by means of objects) : Horse, cow, dog, donkey, cat, doll, fan, mug, cup, saucer, hen, egg, nest, bird, box, bell, top, ball, bat, sheep, axe, apple, basket, pitcher.

Have, see, has, is, put, may, can, will, run, bite.

A, an, the, red, fat, big, little, pretty.

I, it, my, me, you.

Yes, no, not, in.

THIRD MONTH.

Man, boy, girl, lamb, fox, tail, fur, feathers, wool, eye, ear, nose, mouth, head, hair, face, hand, feet, nut, squirrel, kitten, chicken, rabbit.

Do, did, are, was, fly, lay, play, ride, hit, like, spin, eat, smell, hear, wash, comb, jump, catch.

He, she, we, our, this, that.

One, two, three, four, five, good, bad, new, old, white, black, gray, right, left, bushy.

Here, there, where, fast, very, too, now, ever, and, of, to, for, on, with.

FOURTH MONTH.

Tree, leaves, grass, fish, boat, water, book, slate, desk, pencil, school, teacher, day, night, bed, brother, sister, baby, house, barn, yard, street, summer, winter, snow, ice, pond, hill, sled, fire, stove, wood, sun, star, sky.

Be, saw, grow, get, make, read, write, go, say, buy, gave, give, should, feel, try, help, let, live, shines, fell, could, burn.

Six, seven, eight, nine, ten, green, yellow, brown, large, small, warm, cold, soft, sick, blue, long, some, any.

Us, you, his, her, him, they, their, who, these, what.

Why, when, well, at, up, if, always, by, down, out, over, much, how.

COURSES OF STUDY IN THE HIGH SCHOOL.

COLLEGE PREPARATORY COURSE.

FIRST YEAR.

First Term.—Latin Lessons ; Algebra ; General Physics.

Second Term.—Latin Lessons ; Algebra ; General Physics.

Third Term.—Latin Lessons and Cæsar ; English Language ; Botany.

SECOND YEAR.

First Term.—Cæsar ; Greek Lessons ; English Language ; History of Rome.

Second Term.—Cæsar ; Greek Lessons ; Geometry ; History of Rome.

Third Term.—Cæsar and Nepos ; Greek Lessons and Anabasis ; Geometry.

THIRD YEAR.

First Term.—Virgil ; Xenophon ; French ; History of Greece.

Second Term.—Virgil ; Xenophon ; French ; English Literature.

Third Term.—Cicero ; Xenophon and Herodotus ; English Literature.

FOURTH YEAR.

First Term.—Cicero ; Homer ; Arithmetic ; Physiology.

Second Term.—Cicero ; Homer ; Algebra ; English Literature, with the other Divisions.

Third Term.—Virgil (*Æneid* and *Eclogues*) ; Greek (general) ; Geometry.

This Course is intended to afford a full preparation for any New England college.

CLASSICAL COURSE.

FIRST YEAR.

First Term.—Latin Lessons; Algebra; General Physics.

Second Term.—Latin Lessons; Algebra; General Physics.

Third Term.—Latin Lessons and Cæsar; English Language; Botany.

SECOND YEAR.

First Term.—Cæsar; Chemistry; English Language; History of Rome.

Second Term.—Cæsar; Chemistry; Geometry; History of Rome.

Third Term.—Cæsar and Nepos; Chemistry; Geometry; History of England.

THIRD YEAR.

First Term.—Virgil; French; General History; Physics.

Second Term.—Virgil and Ovid; French; General History; Civil Government.

Third Term.—Cicero; French; Civil Government; Astronomy.

FOURTH YEAR.

First Term.—English Literature (Chaucer, Spenser, Bacon, Addison); French; Arithmetic; Physiology.

Second Term.—English Literature (Shakespeare, Milton, Emerson); French; General History (Modern); Algebra.

Third Term.—English Literature (Dryden, Pope, Coleridge, Wordsworth, Burke, Webster, Carlyle); French; Geometry.

Latin Composition to be studied in connection with the authors read.

ENGLISH COURSE;

FIRST YEAR.

First Term.—Algebra; General Physics; English Language, or Book-keeping.

Second Term.—Algebra; General Physics; English Language, or English History.

Third Term.—English Language and Literature; [Botany; Commercial Arithmetic and Business Forms.

SECOND YEAR.

First Term.—English Language and Literature; Chemistry; Botany.

Second Term.—English Language and Literature; Chemistry; Geometry.

Third Term.—Chemistry (Mineralogy, studied collaterally); Geometry; History of England.

THIRD YEAR.

First Term.—French; General History; Physics; English Composition.

Second Term.—French; General History; Civil Government; English Literature.

Third Term.—French; Civil Government; Astronomy.

FOURTH YEAR.

First Term.—English Literature (as in Classical Course); French; Arithmetic; Physiology.

Second Term.—English Literature (same as in Classical Course); General History (Modern); French; Algebra.

Third Term.—English Literature (as in Classical Course); Geometry; Political Economy.

TEXT BOOKS.

Reading.—New Franklin and *Supplementary Readers.

Writing.—*Normal Review System.

Drawing.—*Prang's Complete Course.

Spelling.—Harrington's Graded.

Geography.—*Warren's Introductory and Common School.

Arithmetic.—Franklin.

Language.—Patterson's Grammar and Heath's Elementary Lessons.

History.—*Montgomery's Leading Facts of American History.

Civil Government.—*Macy.

Bookkeeping.—Meserve's.

Physiology.—Hutchison's Laws of Health.

Music.—National Music Course.

TEXT BOOKS.

PRIMARY SCHOOLS.

Readers.—New Franklin First, Second, and Third Readers.

Writing.—Payson, Dunton & Scribners.

Drawing.—Prang's Primary Manual.

MIDDLE SCHOOLS.

Readers.—New Franklin Third and Fourth Readers.

Speller.—Harrington's Graded, Part 1.

Geography.—Harper's Introductory.

Arithmetic.—Franklin Elementary.

Language.—Mrs. Knox's Elementary Lessons in English,
Part 1.

Writing.—Payson, Dunton & Scribner's.

Drawing.—Prang's Series.

GRAMMAR SCHOOLS.

Readers.—New Franklin Fifth, and Modern Intermediate
Readers.

Spellers.—Harrington's Graded, Part 2.

Geography.—Harper's School.

Arithmetic.—Franklin Written.

Language.—Patterson's Elements of Grammar and Composition.

History.—Barnes' History of the United States.

Bookkeeping.—Meserve's.

Physiology.—Hutchinson's Laws of Health.

Writing.—Payson, Normal Review.

Drawing.—Prang's Series.

HIGH SCHOOL.

Algebra.—Wentworth's School.

Arithmetic.—Franklin Written; Robinson's Problems.

Astronomy.—Sharpless and Phillips'.

Bookkeeping.—Meservey's.

Botany.—Gray's School and Field Book (Revised Lessons).

Chemistry.—Shepard's; Remsen's.

Commercial Law.—Clark's.

English Composition.—Lockwood's Lessons in English ;
Abbott's How to Write Clearly.

English Grammar.—Whitney's Essentials of—; Welsh's.

English Literature.—Selections from English Authors.

French.—Worman's French Grammar; Readers (Selected).

Physics.—Gage's Introduction.

Physical Geography.—Guyot's.

Physiology and Hygiene; Martin's; Walker's.

Rhetoric.—Kellogg's.

Science of Government.—Young's; Constitution of New Hampshire; Nashua City Charter.

Surveying.—Bradbury's.

Trigonometry.—Bradbury's.

Drawing.—Prang's Nos. IX, X.

Music.—Whiting's Part Song and Chorus Book ; Charts.

LITERATURE.

To supplement the required reading of the schools, the following list of good books has been compiled from various sources. The hope is that some will be profited by its use.

The Superintendent will be pleased to receive suggestions or numbers not indicated. He is already indebted to teachers and library officials.

Other lists may be had on application at office.

(Numbers refer to Nashua Public Library.)

CITY OF NASHUA, N. H.

REGULATIONS

OF THE

BOARD OF EDUCATION

AND

RULES OF THE PUBLIC SCHOOLS.

REGULATIONS OF THE BOARD.

AMENDED AND ADOPTED, DEC. 29, 1887.

CONSTITUTION OF THE BOARD OF EDUCATION.

I. The Board of Education of the city of Nashua is constituted in accordance with the laws of New Hampshire and the city charter, and consists of twelve members, four of whom are to be chosen annually for a term of three years; said Board at the beginning of each year choosing a President and Clerk from their own number.

II. The Board thus constituted shall have the care and superintendence of the schools; and may, if deemed expedient, appoint a Superintendent, to whom, under the direction of the committee, shall be committed the direction of the schools.

ORGANIZATION OF THE BOARD.

I. The meeting for organization shall be held annually on the Thursday following the inauguration of the City Government at 7 1-2 o'clock P. M. In case of any failure to meet at that time the Clerk of the old Board shall cause a meeting for organization to be called as soon thereafter as practicable.

II. The first business, after the necessary preliminaries, shall be the election by ballot, of a President and Clerk of the Board. If deemed expedient, a Superintendent shall also be elected by ballot. They shall also appoint of their number, on nomination by the President, five standing committees, to wit:—

1. Committee on Finance, Accounts, and Claims.
2. Committee on School-houses and Supplies.
3. Committee on Text-books and Teachers.
4. Committee on Boundaries and Assignment of Scholars.
5. Committee on Music.

III. The Board shall receive the report of the committee upon examination of teachers, and elect or appoint from the names reported such persons to such positions as they may deem proper.

IV. All applications for schools shall be made in the applicant's own handwriting, and shall state the residence, age and experience in teaching, together with reference as to moral character.

V. The salaries of all the teachers shall be fixed by the Board at the time of election, but may be changed at the discretion of the Board.

VI. The annual report of the city, and the preparation of the report required by the State, shall be made by a special committee chosen by the Board, or by the Superintendent.

SUB-COMMITTEES.

I. Sub-committees of the Board shall be appointed once a year, and they shall consider the schools assigned to them under their special care. They, with the Superintendent, shall give advice to the instructors in any emergency, and take cognizance of any difficulty which may occur between instructors and pupils, or parents of pupils, or between the instructors themselves, relative to the government or instruction of the school. An appeal, however, to the whole Board, is not hereby precluded to any citizen, pupil, or instructor.

II. Although the interests of the schools demand sub-committees of the Board, each member shall consider it his duty to watch over all the public schools in the city; to attend their examinations, and to visit them at other times, according to his ability.

ORDER OF BUSINESS.

I. At all regular meetings of the Board the order of business shall be as follows :

1. Reading the call and noting the absent members.
2. Reading the minutes of the last meeting.
3. Report of Committees.
4. Unfinished business.
5. New business.

II. The deliberations of this Board shall be governed by the ordinary parliamentary rules, in the absence of any special regulations.

III. The rules of this Board cannot be altered except upon notice given at one meeting previous to action thereon.

IV. This Board may meet with closed doors when deemed expedient.

V. The meetings of the Board shall be held by adjournment from time to time, or by call of the President, or when requested by two members of the Board.

VI. A majority of the Board present and voting shall be necessary to give validity to any vote or act, and six members of the Board shall constitute a quorum. To be valid any vote or act must receive the vote of four members.

DUTY OF OFFICERS.

I. The President shall perform the usual duties of presiding officer.

II. He shall appoint all committees whose appointment is not especially provided for or otherwise directed by the Board.

III. He may direct the Clerk to call a special meeting whenever he may deem it expedient.

DUTIES OF THE CLERK.

The Clerk shall keep a fair and accurate record of the proceedings of the Board, and shall have charge of all papers directed by the Board to be kept on file; he shall give notice of each special meeting; he shall notify the chairman of every committee appointed, stating the special duties of said committee and the name of the members associated with him; he shall call extra meetings of the Board, by direction of the President, or at the request of two or more of its members; he shall notify instructors elect of their appointment, and give such other notices as the Board may direct.

DUTIES OF COMMITTEES.

I. The committee on finance, accounts and claims shall examine all bills, and report the same to the Board for final action.

II. The committee on school-houses and supplies shall examine into the condition of houses, outbuildings and yards; make such repairs as they may deem necessary, and purchase all needed supplies, when any such expenditure will not, by estimate, exceed one hundred dollars. Larger expenditures shall first be reported to the Board and receive its approval.

III. The committee on text-books and teachers shall recommend to the Board what changes, if any, shall be made in text-books; shall, with the Superintendent, examine such persons as propose to teach in any of the schools, and furnish to the board the result of such examination, for final action; and shall assign or transfer elected teachers as they may deem expedient.

IV. No change of text-books shall be made at any time unless by a vote of two-thirds of the entire Board.

V. The committee on boundaries and assignment of scholars shall establish the boundaries for the several school divisions and regulate the attendance in each.

RULES FOR THE SUPERINTENDENT.

SECTION 1. The Superintendent shall make the public school system a study, and keep himself thoroughly informed of the discipline and progress of instruction in other places, that he may prescribe the most efficient means for advancement of the public schools of the city. He shall devote himself entirely to the duties of his office, and secure a full compliance with the orders and regulations of the Board of Education.

SECT. 2. He shall, under the direction of the Board, have the supervision of all the public schools; he shall visit and carefully examine into the condition and progress of each school as often as his other duties will permit; he shall attend to the classification of scholars, and equalize, as far as practicable, the attendance upon different schools.

SECT. 3. He shall have power to appoint stated or occasional meetings of the teachers in the public schools, for the purpose to

instructing them in relation to their duties, and for mutual consultation in matters touching the prosperity of the schools. He shall advise with the teachers in reference to the course of instruction and discipline, see that the prescribed studies are carefully pursued, and that no books are used except those adopted by the Board; and all orders issued by him shall be binding upon all teachers unless revoked by the Board.

SECT. 4. He shall investigate all cases of discipline or difficulty reported to him by teachers, parents or guardians and take such action in the case as he and the sub-committee deem expedient. He shall exert his personal influence to secure general and regular attendance, and to raise the character of each school, and, as far as practicable, of each scholar.

SECT. 5. He shall attend the meetings of the Board, and, when called upon by the President, express his opinion on any subject under discussion, and give such information as he may be able. He shall receive and classify the monthly reports of the principals of the several schools, and present them to the Board at its next meeting; and at the beginning of each term shall receive and classify the order of exercises of each school in the city. He shall annually prepare a written report for publication, giving such information as to the character of the schools, and presenting such plans for their improvement as he deems advisable.

SECT. 6. He shall aid in the examination of teachers, and direct all public and private examinations of schools appointed by the committee.

SECT. 7. He shall furnish to teachers all necessary blanks, registers and text books, and shall keep an account of the same. He shall use his best efforts to secure the observance of the law concerning the employment of children in manufacturing establishments, and carefully inquire and ascertain the names of all scholars of non-resident parents and guardians, and make out all bills and collect all moneys due the city for their tuition. He shall be authorized to cause all such repairs to be made as are immediately needed for school-houses, furniture and warming apparatus.

SECT. 8. He shall have direction and control of the transfer of scholars from one school to another of the same grade, and all

certificates of transfer shall be signed by him. Upon every application for a transfer, he shall investigate the reasons therefor, and especially regard the numbers in the schools and the residence of the scholars. In doubtful cases he shall consult the appropriate sub-committees, or refer the case to the Board.

SECT. 9. Under the advice and direction of the Board, he shall examine, or cause to be examined, the most advanced classes in the schools, or so many as may be candidates for the next higher grade, in such manner as shall be prescribed by the Board, and make selection of such as are prepared for promotion.

SECT. 10. He shall report to the Board at each monthly meeting the number of cases of corporal punishment occurring in each of the public schools during the previous month.

SECT. 11. In all cases of truancy or non-attendance upon school which may come to his knowledge, he shall, in every instance, strive to reform the child; but, if unsuccessful, he shall report the names of the habitual truant or absentee to the officer whose duty it is to make complaint in such cases. He shall report to the Board every case of delinquency, tardiness, or violation of any of the rules on the part of teachers.

SECT. 12. The Superintendent, or the Board, may make arrangements with dealers in books and supplies to furnish to pupils whatever they may need to use in the schools, at as small advance above wholesale prices as they may be able to secure.

SECT. 13. He shall keep regular office hours, and shall be in his office, *on all school days*, except when visiting Suburban schools, from 8:30 to 9:30 A. M., and from 12 to 12:30 and 4:30 to 5 P. M. In case of absence or sickness, he shall notify the President of the Board, and make such arrangements for his office as he may think proper.

RULES OF THE SCHOOL.

RULES OF TEACHERS.

I. THE PRINCIPAL.—The school-house and outbuildings, with their keys, furniture, grounds, and all other property belonging to

the school, shall be in charge of the Principal, who will be held responsible for their preservation

II. The Principal shall carefully observe the hours appointed for commencing and dismissing the schools, and shall be at the school-house for the purpose of preserving order, at least fifteen minutes before the hour prescribed for beginning the school.

III. The Principal shall send to the Superintendent, on the Monday following the close of each month, a report showing the whole number and the average number of males and females in the school, together with the average daily attendance, and the percentage of daily attendance for the month ending on the preceding Friday, or such part thereof as has not been embraced in a previous report. He shall also report the number of cases of corporal punishment occurring in each class of the school under his charge, together with such other information as the Superintendent may deem for the best interests of the Public Schools.

IV. The Principal shall establish such rules as may be necessary to secure good order and neatness in the school-house and on the grounds, and the preservation of the furniture, books and apparatus in the school-rooms.

V. Unless other provision is made, the Principal shall appoint some suitable person to build fires and take care of the school-house, whose compensation shall be fixed by the Board.

VI. In all cases of willful and persistent violation of the rules of the school, the Principal may suspend the offender. In all cases of suspension the Principal shall at once give notice to the parent or guardian of the pupil, and also to the Superintendent; and every such notice shall state the offence for which the suspension is inflicted.

VII. No Principal shall be engaged in any other profession or employment while employed by the city.

VIII. THE ASSISTANT TEACHERS.—In the absence of the Principal, the assistant teacher shall take charge of the school unless other provision is made by the sub-committee. It shall be the duty of all the assistant teachers to co-operate with and assist the Principal in the maintenance of order, study and discipline among the pupils, and they shall be in their respective

class-rooms for that purpose, at least fifteen minutes before the hour prescribed for beginning the school.

IX. Teachers shall dismiss their classes promptly at the appointed hour; but individual pupils may be retained for discipline or instruction, not exceeding thirty minutes, after the close of the afternoon session.

X. IN GENERAL.—During school hours all teachers shall faithfully devote themselves to the instruction, discipline, manners and habits of the pupils. They shall give constant employment to their scholars, and endeavor by judicious and diversified methods to render the schools both pleasant and profitable. They shall use all suitable means to promote good morals and polite manners among their pupils. They shall maintain firm, prudent and vigilant discipline, and shall use corporal punishment only when gentler measures fail to secure obedience.

XI. All teachers shall be required to keep registers furnished at the public expense, in which they shall record the name, age, and attendance of each pupil, and such other particulars as shall give a correct idea of the state of the school. These registers shall be returned to the Superintendent at the close of each term unless otherwise directed; and all blanks in these registers shall be filled out each term, in order that teachers may be legally entitled to receive their pay. A certificate from the Superintendent that these requirements have been complied with shall be presented to the City Treasurer before the salary shall be paid.

XII. Any teacher desiring to be absent from school shall obtain permission of the Superintendent who shall be authorized to fill such temporary vacancy. The absence of any teacher for more than two weeks shall cause a deduction from the salary of each teacher, corresponding to the entire absence, but for a less period no deduction shall be made from the regular salary, and the teacher shall pay the substitute provided by the Board. Substitutes shall be paid only for days of actual service as follows: High school, \$2.50; Grammar, \$2.00; Middle and Primary, \$1.66; and Suburban schools, \$1.50 per day; but for a full term they shall receive the minimum salary of that particular grade.

XIII. If any teacher is absent or tardy without being excused by the Superintendent, or shall dismiss school before the end of the session without his permission, it may be considered by the Board as a resignation on the part of such teacher.

XIV. The absence of any teacher, employed in the public schools of Nashua, from any exercise, meeting or gathering called by the Superintendent or authorized or directed by him or the Board of Education or any Committee thereof, may be considered by the Board as a resignation on the part of such teacher.

XV. All teachers, upon notification of their election, shall be presented with a copy of these regulations, and they shall signify their acceptance by subscribing to them.

XVI. It shall be the duty of all teachers to have a copy of these regulations at all times at their respective school-rooms, and "Rules of the Schools, relating to pupils" shall be read to the pupils by the teacher at least once during each term.

XVII. The practice of teachers receiving presents from pupils while in the service of this city is, in the opinion of the Board, wrong, and is therefore prohibited.

XVIII. Teachers are prohibited from furnishing any text books or supplies to pupils.

XIX. Any teacher who leaves the school under her instruction, except in case of sickness, before the close of the school year, shall receive no compensation for the last four weeks of service, unless notice of such intention was duly given before the commencement of the then current term. *Provided:* That the Board, in regular meeting, may waive the last foregoing stipulation.

XX. Teachers' certificates shall not be granted to persons under eighteen years of age, and to no pupil of the High School while said pupil is attending school.

ADVERTISEMENTS.

XXI. No teacher shall read or distribute any advertisement or allow any advertisement to be read or distributed in any of the public schools, nor shall any public entertainment be announced in any school without special permission.

SECTARIAN INSTRUCTION PROHIBITED.

XXII. No book or tract designed to advocate the tenets of any particular sect or party shall be permitted in any of the schools; nor shall any sectarian or partisan instruction be given by any teacher in the same.

MORNING EXERCISES.

XXIII. The morning exercises of all the schools shall commence with the reading of the Scriptures, followed by the Lord's prayer, during which service all the teachers and pupils connected with the schools shall be present.

RELATING TO PUPILS.

I. AGE.—No pupils under five years of age shall be admitted to the schools.

II. PLACE.—Pupils shall attend the schools in their own divisions, unless permission to attend elsewhere is granted by the Superintendent, and approved by the Committee on Boundaries and Assignments, or by the consent of the Board.

III. STUDY.—No pupil shall be allowed to study out of school *during school hours*, or leave school for the purpose of taking music lessons, or take less than the required number of studies, or change from one prescribed course to another, without permission from the Board. Pupils shall make up all neglected lessons, unless excused by the Principal. All scholars in the schools shall pursue the prescribed studies unless they shall present to the Superintendent a certificate of physical disability from their regular family physician.

IV. TERMS OF ADMISSION.—Each applicant must present to the teacher a certificate of admission from the Superintendent.

V. DEPARTMENT.—Each pupil shall enter the department indicated by the card of admission.

VI. BOOKS.—Each pupil shall come provided with the necessary books, etc.

VII. TIME FOR OPENING SCHOOL.—The bell shall be rung five minutes before the time of commencing school, and all scholars

not in their seats at the expiration of those five minutes shall be accounted tardy.

VIII. EXCUSES.—Any pupil having been absent or tardy shall be required to bring a written excuse from parent or guardian; and any pupil who has been absent five half days in the month (two tardy marks counting as one half day's absence), except from sickness or some imperative necessity, shall be sent to the Superintendent.

IX. LEAVING SCHOOL.—No pupil shall be allowed to leave school before the appointed time, except in case of sickness, or some pressing emergency, of which the teacher shall be judge.

X. ORDER.—When pupils enter their respective rooms, before the time for opening school, they shall conduct themselves with due decorum. They shall not indulge in scuffling, whistling, boisterous noise, or loud talk in the school building.

XI. PERSONAL NEATNESS AND CLEANLINESS.—Among the pupils special attention shall be paid to personal neatness and cleanliness. The use of tobacco in any form, by teacher or pupils, is expressly prohibited. Any child coming to school without proper attention being given to cleanliness, or whose clothes need repairing, shall be sent home to be properly fitted for school.

XII. TO AND FROM SCHOOLS.—Pupils shall be under the jurisdiction of teachers to and from school.

XIII. IMPROPER CONDUCT.—Any pupil who shall, on or around the school premises, use or write any profane or indecent language or draw any obscene pictures or representation, shall be liable to suspension or expulsion.

XIV. DAMAGE TO SCHOOL PROPERTY.—Any pupil guilty of defacing or injuring the school property, shall pay in full for all damages, and be liable to suspension.

XV. INJURIOUS HABITS AND CONDUCT.—In all cases where the conduct and habits of a pupil are found injurious to associates, it shall be the duty of the principal to suspend such pupil from school, and at once report the case to the parent or guardian and to the Superintendent.

XVI. VACCINATION AND DISEASE.—No scholar shall be permitted to attend any school in this city who has not been duly

vaccinated; nor shall any scholar afflicted with any contagious disease, or residing in a family afflicted with any such disease, be permitted to attend until he has produced a certificate from some regular physician, stating that there is no danger to be apprehended from the same.

XVII. ABSENCE FROM SCHOOL.—Whenever any scholar is absent from school, the teacher shall at once ascertain the reason, and if such absence be continued, and is not occasioned by sickness or other sufficient cause, he shall report such absence to the proper authority for enforcing the truant law.

XVIII. No scholar shall be allowed to remain in any school-room during the noon intermission, unless the teacher is present, or the special consent of the teacher is obtained.

XIX. TUITION.—Non-resident pupils, unless by special vote of the Board, shall be required to pay tuition as follows: For a term of twelve weeks in the High school, \$12; Grammar schools, \$8; Middle schools, \$5; Primary and Suburban schools, \$3; and at corresponding rates for fractional parts thereof.

XX. Pupils who do not maintain a fair standing in their classes by reason of absence, indolence, inattention, or lack of previous preparation, may be placed in a lower class on the recommendation of the teacher and consent of the sub-committee and Superintendent.

SCHOOL TERMS.

I. NUMBER OF TERMS.—The school year shall be divided into three terms, which shall begin and end as follows, unless changed by special vote of the Board.

II. SPRING TERM.—The Spring Term shall commence on the second Monday in April, and continue twelve weeks.

III. FALL TERM.—The Fall Term shall commence on the third Monday in September, and continue twelve weeks.

IV. WINTER TERM.—The Winter Term shall commence on the last Monday in December, and continue twelve weeks.

SCHOOL HOURS.

I. SESSIONS.—The session of all the schools shall be of five

hours' duration. The morning session shall begin at nine o'clock, and the afternoon session at two o'clock, closing at four o'clock.

II. RECESS.—During the morning session there shall be a recess of fifteen minutes, and during the afternoon session of the Middle and Primary schools there shall be a recess of fifteen minutes.

VACATIONS AND HOLIDAYS.

I. VACATIONS.—There shall be a vacation following the winter term, of two weeks; following the spring term, of eleven weeks; following the fall term, of three weeks.

II. On *very stormy* days the school sessions may be omitted in all grades. Notice will be given by the school bells at 8:15 for no session in the forenoon, and at 1:15 for no session in the afternoon. For no session in the Evening schools, notice will be given by the Spring street bell at 6:15.

III. HOLIDAYS.—The following holidays shall be granted to the schools: Every Saturday, Twenty-second of February, Fast Day, Memorial Day, Fourth of July, Thanksgiving Day and the day after, and Christmas.

VENTILATION.

I. Teachers must, at all seasons of the year, make the ventilation and temperature of their school-rooms an essential object of attention. *The air in the room must be sufficiently changed at every recess and at the close of every session. Pupils should in no case be allowed to sit in a draught of air.*

II. Every school-room must be supplied with a thermometer which will be furnished upon the application of any teacher to the Superintendent. The thermometer shall be placed so as to indicate, as nearly as possible, the average temperature of the room.

JANITORS AND THEIR DUTIES.

This Board shall annually elect by ballot one or more persons to serve as janitors. It shall be the duty of the janitor to have the charge of the heating apparatus and the water works con-

nected with the school-houses, to keep the rooms clean and well ventilated; to take care of the school-houses and outbuildings; to make minor and incidental repairs; to lock and unlock the doors; to notify the committee on school-houses and supplies whenever fuel is needed, and to see that the premises in general are kept in good order. They shall also be subject to such special regulations, and perform such additional duties in and about the premises, as the sub-committee on their respective schools, or the Superintendent, may indicate.

RULES FOR THE TEACHER OF MUSIC.

I. Vocal music shall be taught one-half hour each week in each division of the Grammar, Middle and Primary schools of the city, by the teacher of music, except in the second and third Primary grades where the time may be reduced to fifteen minutes each at the option of the Superintendent; and in addition, fifteen minutes each day (excepting the day of the regular instruction by the Teacher of Music) shall be devoted to musical instruction by the regular teacher, under the general direction of the teacher of music; and vocal music shall be in all respects regarded as one of the regular studies of the schools.

II. It shall be the duty of the Teacher of Music to call special meetings of the teachers for the purpose of instructing them, and for mutual consultation in regard to the teaching of this service.

III. He shall, while he is in the school, have complete charge of the same, and every teacher will be expected to aid and assist in any way that he may direct.

IV. No scholar will be excused from this exercise, unless an excuse is received from the teacher of music and sub-committee in the district to which he may belong.

V. During the time that he may have charge of the school all the scholars will be subject to his government and discipline.

VI. He shall, monthly, report progress to the Board at their meetings, and in case any difficulty should arise between

himself and any teacher, he shall report the same to the Superintendent without delay.

VII. He shall recommend to this Board, after a careful examination, some regular system of music. But he shall not make any change of books or systems until these have been referred to the committee on music, and have received the sanction of the Board.

VIII. He shall have complete control of all the instruments of music, charts, books, etc., which shall belong to the city, and shall make it his special business to see that proper care is taken of the same, and, in case of any injury or rough usage to the same by any scholar or teacher, shall report the same to the committee on music.
